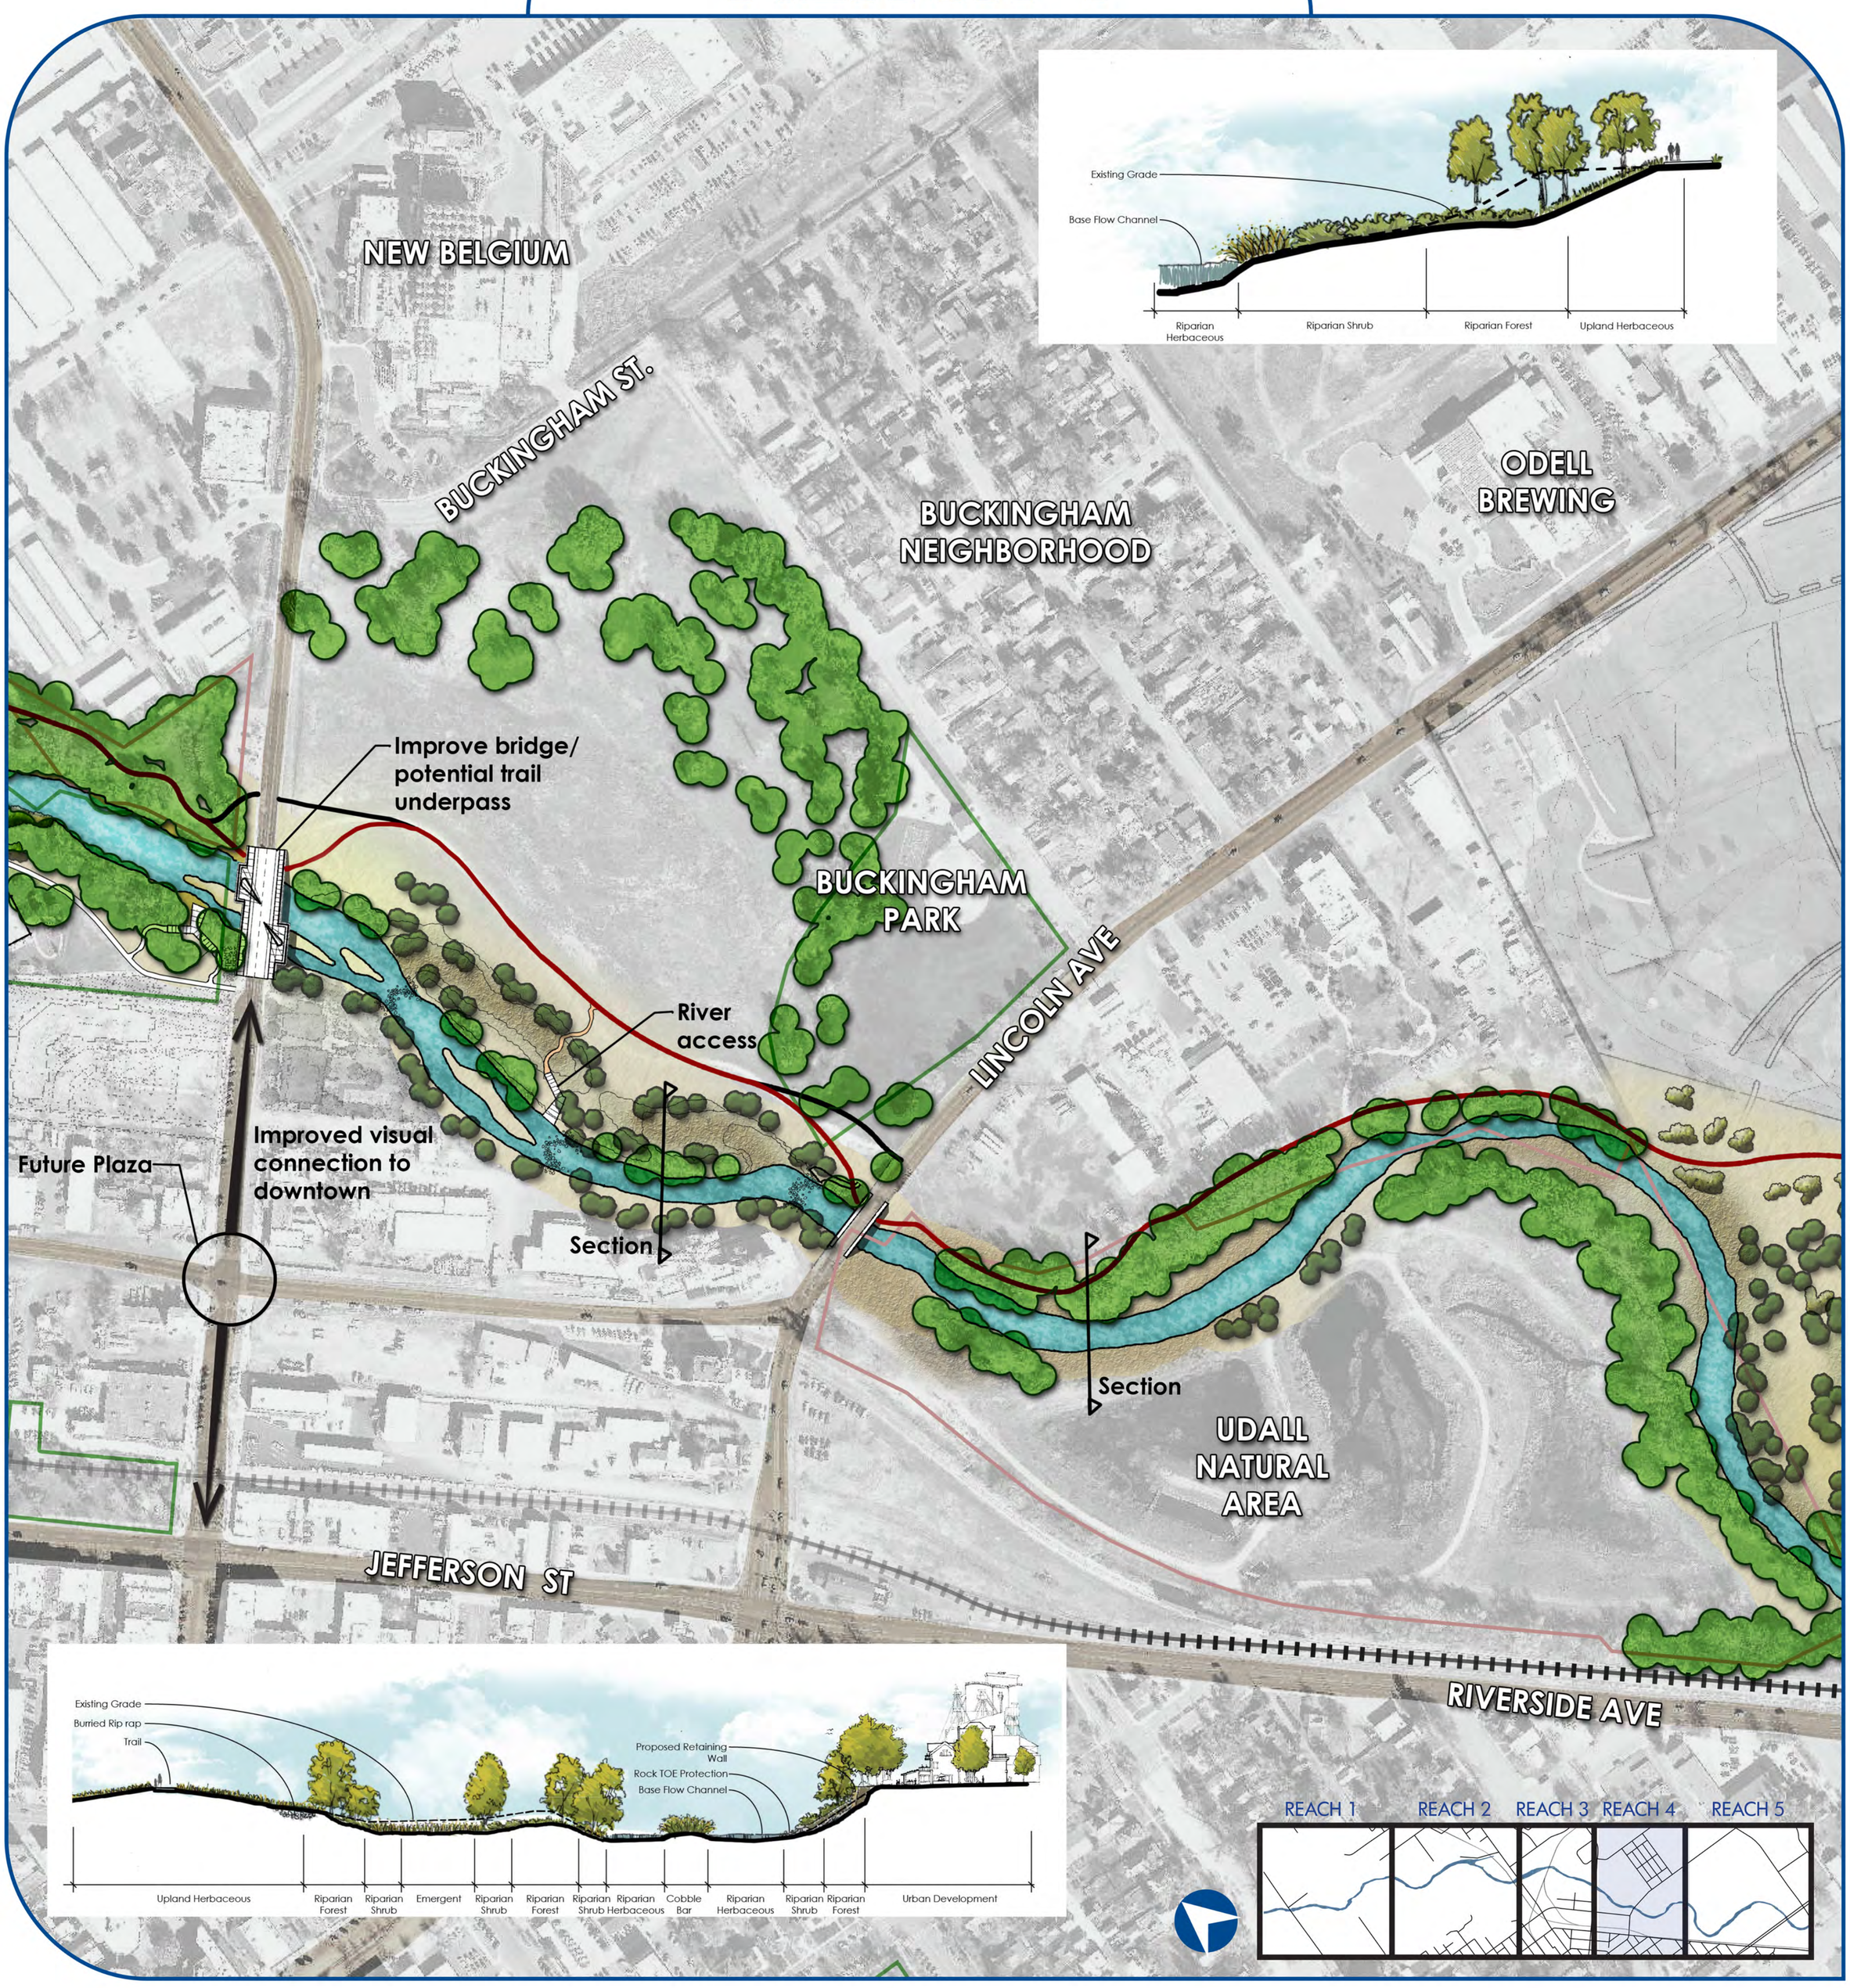
REACH 4



Recreation

- Improve access to river for play, boating, and fishing
- Potential trail underpass at Linden Street

Flood

- Reduce flood flow constriction west of Linden Street
- Maintain required maximum flood levels along the Ox-bow Levee
- Reduce flood levels on existing buildings
- Cause no adverse flooding impacts

Habitat

- Expand riparian and upland vegetation width between river and trail along north bank
- Improve aquatic habitat along toe of both banks
- Replace riprap/rubble from toe of bank with natural treatments at toe and/or offset hard treatments
- Lower floodplain to allow more frequent overbank flooding and wider riparian zone
- Improve connectivity for terrestrial wildlife corridor
- Integrate additional habitat features around proposed lowlands and backwater areas

Other

- Improve visual and physical connection between Poudre River and Downtown
