Retro Nostalgia

Colors from the 1950's behind outlined images of nostalgic items by genre. I want people to see the items and think, "man, I used to have one of those!" Genres include; music, photography, communication, and film.

ANIMAL GAMES

Demonstration in the Xeriscape Garden event in August.

Bits of realism, primarily in the featured animal, with abstract-collage backgrounds. These designs will enable a lot of freedom to ensure no large areas of low contrast. I want to play with the idea of realistic zoo animals out of their element and into wild color combinations and patterns.
