

# Transformer Cabinet Mural Project 2017

Artist: Gale Whitman

Location: 118 Laurel (Need SP #, 4th of group—she painted 3 last year)

## Melody and Harmony

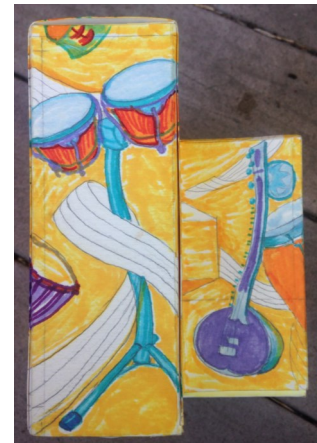

The design for my cabinet has the same theme as the 3 cabinets next to it that I painted last year: musical instruments depicted relatively accurately but with some fun distortion. The color scheme coordinates well with that of its neighbors, but will stand out as new with its yellow-orange background color. The characters featured include many world music instruments such as the bagpipe, djembe drum and a digeridoo, plus some that just wouldn't fit on the other three cabinets last year!
