

Transformer Cabinet Mural Project 2013

Artist: Cynthia Danielle

Location: 2602 S Timberline, on the South side of the Subway in the shopping center at Drake and Timberline.

I enjoy children, ocean animal life, and the intensity of all its colors. I wanted to be able to show the expressions on the children's faces, so I painted the aquarium inside out. The opposite of how we normally see it. The brightness of color and the happy excited faces of the children add cheerfulness to the surrounding area, and hopefully will be enjoyed by all its visitors. The children on my box are my neighbors' children; to me this incorporates community, family, and involvement.
