

Transformer Cabinet Mural Project 2014
Artist: Gale Whitman
Location: 223 S. Shields, NE of CSU Early Childhood Learning

“Wind is Our Friend”

The mural on this transformer cabinet celebrates the friendly benefits of WIND! The scene on the back (south) side shows several people windsurfing on a lake resembling Horsetooth Reservoir. On the east side of the cabinet facing Shields Street we see children and grownups enjoying the sport of kite-flying. The front (north) face shows a hillside covered with turbines converting wind energy into electricity, and the west side depicts a clothesline full of clean laundry drying in the sun and wind.
