

Transformer Cabinet Mural Project 2015

Artist: Gale Whitman

Location: Harmony/Mason Trail (One of 2 cabinets)

This design is inspired by our flowerbed in the front yard. Yellow-flowering yarrow with grey-green foliage is interspersed among a field of white daisies with yellow centers and dark green foliage. On the upper 1/3 of the cabinet sides is a colorful sky featuring stripes of yellow, orange, red and magenta. The top of the cabinet sports a surreal, sunset-lit pattern of swirling clouds.

Natural Areas Sponsored Transformer Cabinet Mural

Artist: Gale Whitman

Location: 1745 Hoffman Mill Rd. – off walkway between office buildings

The design represents one season for each side with some of the different animals and plants that are present in the area at the different times of the year.
