This particular site is a little bit of a darker area, with muted colors of the building at 215 W Magnolia and the asphalt parking area. That being said I wanted to bring big vibrant color to the space! I think the pumpkin orange and periwinkle background, with splashes of black, white, lime, teal and fuchsia are a perfect fit for this forgotten little corner. The visitors to 215 will be able to see it as they come in from the parking lot but the customers at Restaurant 415 will also see it as they come and go from there cars, ultimately being seen in some part from Mason Street.
