

**Transformer Cabinet Mural Project 2011**  
**Artist: Nanci Erskine**  
**Location: 1 Cabinet is just south of Drake on Redwing Rd.**  
**A second cabinet is about 40 yards south of the first cabinet at 2628 Redwing Rd.**

These cabinets are right alongside the Mason St. bikepath, in addition to being located on Redwing Rd. So..... of course I thought of creating a marshy grass-filled environment with redwing blackbirds.

Whenever I have ridden my bike outside of the urban area, one of the nicest surprises is hearing the lovely song of these birds as you zip past fields, or grassy strips along the road. Their proximity to human activity, and the striking shot of color on their wings is always a delight.

Assuming the name of this street never changes, it seemed like a perfect set of images to create on the cabinets.
