

*YOU ARE INVITED to the 3rd in a series of Community Conversations
exploring the growth of our senior population in Fort Collins*

- What does the Senior Center already provide our community, and how can we plan for its expansion?
- What would you like to see in the expanded facility that would make you want to participate?
- What can community members do to get involved?

Please join the Senior Advisory Board, the Senior Center Expansion Committee, and CSU's Center for Public Deliberation for a light meal and conversation:
