

HEAVY DOORS

This is an on-going project sharing with establishments, in Ft. Collins, the poundages of their doors, both inside and out. The doors are tested by simply using a fish scale. The suggested ADA recommendations are:

- * Entry Doors - 8 1/2 lbs.
- * Exit Doors - 8 1/2 lbs.
- * Men's Restroom Door - 5 lbs.
- * Women's Restroom Door - 5 lbs.

If you find your doors need adjusting, remove the closure covering.
Turn the screw or bolt on the end to the right to increase the poundage and to the left to decrease the poundage

If assistance is needed you may contact the City of Fort Collins
Facilities Department at 221-6611.
