

# Partnership Agreement

As a partner in the Climate Wise program, \_\_\_\_\_ (company name) will identify and implement cost-effective energy efficiency and pollution prevention measures.

As a partner in the program we will:

- Establish a process for identifying and subsequently implementing cost-effective energy efficiency, pollution prevention, and transportation reduction actions. We understand that the City's Climate Wise team is available to help identify candidate actions in these three areas.
- Submit a *Climate Wise Action Plan* via on-line forms at the City's Climate Wise website, with a signed hard copy provided to the City.
- Annually report the result of our actions to the City.

We also understand that we have the option to annually update and resubmit our Action Plan. This will provide a forum for continuous improvement, benchmarking, reevaluation, and revision while ensuring a flexible approach to meeting our overall emissions reduction targets.

Our Climate Wise contact is:

\_\_\_\_\_ (name) \_\_\_\_\_ (title)  
\_\_\_\_\_ (phone) \_\_\_\_\_ (fax) \_\_\_\_\_ (email)

Certification:

We pledge to make a good faith effort towards implementing the measures that we include in our Climate Wise Action Plan. We will work to achieve actual reductions in greenhouse gases to the maximum extent technically and economically feasible.

Signed:
