

Climate Wise

ENERGY STAR for Buildings and Portfolio Manager

Seth Jansen, The Brendle Group
sjansen@brendlegroup.com | 207.0058

Agenda

- ENERGY STAR for Buildings and Climate Wise
- What is Portfolio Manager?
- Who is eligible for a rating?
- How does Portfolio Manager calculate benchmarks?
- How do I use it?
- Applications
- Earning the ENERGY STAR Label

ENERGY STAR For Buildings and Climate Wise

- Satisfy Platinum tier requirement by earning building label:
Demonstrate Superior Sustainability Performance
- Submit documentation through myCW
- Compliments the Greenhouse Gas Baseline Tool

Portfolio Manager and GHG Baseline Tool

Portfolio Manager

- **ENERGY STAR's energy management tool**
- Tracks utility data for energy and water
- Provides normalizing and benchmarking
- Greenhouse gas emissions for energy use based on regional factors
- Can copy data into Baseline Tool

Greenhouse Gas Baseline Tool

- **Climate Wise tool for basic greenhouse gas inventories**
- Includes energy, embodied energy in water, transportation, and solid waste
- Customized emission factors for Fort Collins

Who is eligible for a rating?

- A facilities space must be at least 50% of one of the following and less than 10% “other”
 - Bank/Financial Institution
 - Courthouse
 - Hospital (acute care and children’s)
 - Hotel
 - House of Worship
 - K–12 School
 - Medical Office
 - Municipal Wastewater Treatment Plant
 - Office
 - Residence Hall/Dormitory
 - Retail Store
 - Supermarket
 - Warehouse (refrigerated and non-refrigerated)

What if my building is not eligible?

- Can still use Portfolio Manager to track energy use and costs
- Choose “Other” as your building type
- Track the Energy Use Index or Intensity (EUI)
 - EUI is the energy used per square foot expressed as kBtu/ft²

How do they do that?

- Provides a percentile rank (0-100) of your facility compared to similar ones nationwide
- How do they provide an equitable rating taking into account differences in location and operation?
- Peer group comparison using nationally representative dataset
 - DOE Commercial Building Energy Consumptions Survey (CBECS)
- Source energy consumptions
- Normalize for location & operations using statistical regression analysis
 - Weather
 - Heating degree days and cooling degree days
 - Square footage
 - Hours of operation
 - # of workers, computers, cash registers, refrigeration units, % of space heated and cooled, etc.

How do I use Portfolio Manager?

- Collect input data
 - Electricity and gas data for last 12 months
 - Other variables depending on the building type: # of workers, computers, cash registers, refrigeration units, % of space heated and cooled, etc.
- Go to Portfolio Manager on ENERGY STAR's website
- Create an account
- A detailed animated training is available on the ENERGY STAR website

How do I use Portfolio Manager?

- Log into Portfolio Manager
- Add a Property
- Add a Space
- Add Energy Meters
 - Input 12 months of electricity and gas data
 - Importing features if have large amount of data or many facilities
- Reporting features

[FAQ](#) [FREQUENTLY ASKED QUESTIONS](#) [CONTACT US](#) [HELP](#)

WHAT'S NEW IN PORTFOLIO MANAGER

New! Portfolio Manager Reports
EPA is pleased to announce a new reporting feature in Portfolio Manager that allows users to extract and display information about their facilities and their energy performance to assist in prioritizing activities and investments, establishing more robust benchmarks, reporting to other groups, and conducting comparative analysis.

Portfolio Manager Reports allows users to select from eight predefined report templates and to customize reports using a variety of data filters. Report results can be viewed as a data table or graph, and results can be exported in PDF, Excel, XML and CSV format. Portfolio Manager Reports is accessed from the My Portfolio page by clicking on the Generate a Report link. Learn more by reviewing the [Portfolio Manager Reports Quick Reference Guide](#).

New! New Occupancy Requirements for Office Buildings Applying for the Label
Based on recent EPA analysis, more office buildings may now be eligible for the ENERGY STAR label. Any office building with an occupancy rate greater than 50% will now be considered eligible for labeling if it earns a rating of 75 or higher and meets all other standard labeling criteria. In order to qualify, Offices will be required to enter vacant space separately in their building. For more information on this rule change and how to enter vacant space correctly in your building, please see our [FAQ](#).

* Is there an energy efficiency Service and Product Provider assisting with benchmarking this building?

Select SPP

If no SPP is managing data for this facility, select "None". If this facility's SPP is not displayed, [Add/Edit Contacts and Organizations](#) to add the facility's SPP to the drop-down menu.

Facility Home Page

Select Electric Distribution Utility

Portfolio Manager uses your electric distribution utility to identify your [regional power grid](#) which provides electricity consumed in your building. The Zip Code entered for this facility (80524) is serviced by more than one utility.

Please identify your electric distribution utility from the list below:

Select Your Electric Distribution Utility [\(What is this?\)](#)

Electric Distribution Utility	Regional Power Grid
<input checked="" type="radio"/> Fort Collins City of	WECC Rockies
<input type="radio"/> Public Service Co of Colorado	WECC Rockies

Sharing Data

Add a Space

Add Office Space: Offices

Please provide values for each required attribute below. Values for optional attributes can all be left blank. If you are providing a **temporary value**, select the "For Temporary Use" checkbox and provide the actual value. Facilities with temporary values may still apply for the ENERGY STAR.

If you wish for Portfolio Manager to provide **default values**, select the "Use Default Checkboxes" checkbox.

☒ **REQUIRED**

Space Name:

***Required for Benchmarking** [What is this?](#)

Space Attribute	Space Attribute Value (Temporary values should only be used if an Actual value is not currently known) What is this?	Use Default Value	Units	Effective Date (when this Attribute Value was first true) What is this? (MM/DD/YYYY)
*Gross Floor Area	<input type="text"/> <input type="checkbox"/> For Temporary Use?	N/A	Sq. Ft. ▾	<input type="text" value="01/01/2000"/>
*Weekly operating hours	<input type="text"/> <input type="checkbox"/> For Temporary Use?	<input type="checkbox"/>	Hours	<input type="text" value="01/01/2000"/>
*Workers on Main Shift	<input type="text"/> <input type="checkbox"/> For Temporary Use?	<input type="checkbox"/>	No Units	<input type="text" value="01/01/2000"/>
*Number of PCs	<input type="text"/> <input type="checkbox"/> For Temporary Use?	<input type="checkbox"/>	No Units	<input type="text" value="01/01/2000"/>
*What percent of this space is air-conditioned?	Select ▾ <input type="checkbox"/> For Temporary Use?	<input type="checkbox"/>	No Units	<input type="text" value="01/01/2000"/>
*What percent of this space is heated?	Select ▾ <input type="checkbox"/> For Temporary Use?	<input type="checkbox"/>	No Units	<input type="text" value="01/01/2000"/>

Add a Facility Space

This facility must have at least one defined space and all defined space(s) must account for 100% of the facility's space.

- 1) A portion of the facility is unique (e.g., a restaurant within a building predominantly used as an office).
- 2) Usage patterns are unique (e.g., one tenant uses the facility much longer hours than others). Does the facility have unique usage patterns?

Note: If your space is not listed below, please select "Other." You will have an opportunity to further describe the space in the "Other" field.
[about selecting space types](#)

☒ **REQUIRED**

*Enter a Name for this Space:

*Select a Space Type:

*Enter the Effective Date (MM/DD/YYYY) for this Space.

The Effective Date is used by Portfolio Manager to determine the starting date for including this Space's attributes in the overall calculation of the facility's energy performance rating:

Add Energy Meters

Space Use [Add Space](#)

Space Name	Space Type	Floor Area (Sq. Ft.)	% Floor Area	Alerts	
Offices	Office	10,000	100		Delete Space
Total		10,000	100		

Because more than 50% of your building is Office, your building is designated as Office within Portfolio Manager. This building may be eligible for a rating ([Click to learn more](#)). If you can see a rating for this building, please note that the rating takes into account all of the space types you have listed. If you cannot see a rating for this building, you can be compared to the national average for Office ([Click to learn more](#)).

Due to rounding, the % Floor Area Total may not always equal 100%.

Energy Meters [Add Meter](#) | [Update Multiple Meters](#) | [View All Meter Data in Excel](#)

Meter Name	Energy Type	Space(s)	Last Meter Entry (End Date)	Alerts

Add Energy Meter

Add Facility Energy Meter: Test 1

To add a meter, enter the name and select the appropriate characteristics for the meter.

If you are entering temporary values for energy data, please indicate so by selecting "Yes" and entering the date range the values will be considered as temporary.

☒ REQUIRED

Add Energy Meter

*Enter the Meter Name:

*Apply this meter to the following (check all that apply):

- ☒ Entire facility
☐ Offices

Select the Meter Type:

*Energy Type:

*Generation Method:

*Units:

*Add this Meter to Total Facility Energy Use?

- ☒ Yes, calculate this facility's total energy use by including this meter
☐ No, adding this meter to this facility's total energy use will inflate the actual value

Is this meter currently active?

- ☒ Yes ☐ No

Temporary Energy Data

* Are temporary values being used for energy data? ([what is this?](#))

- ☐ Yes
☒ No

Add Energy Meter

Add Meter Entries: Electric

Please select the number of meter entries to add, enter the start date for these meter entries, and select Continue. If you do not want to add meter entries at this time, select "Do Not Add Meter Entries"

☒ REQUIRED

Select Number of Meter Entries to be added and Start Date for first entry:

Meter Entries to Add	* Start Date (MM/DD/YYYY)	Energy Type	Units
12 <input type="text"/> Month(s)	<input type="text"/>	Electricity	kWh (thousand Watt-hours)

Enter Energy Use: Electric

Please enter the energy use for each meter entry below. Portfolio Manager requires meter entries are for consecutive time periods; only one day of overlap or one day of gap between meter entries to be eligible to generate an Energy Performance Rating

Add Energy Use:

Start Date (MM/DD/YYYY)	End Date (MM/DD/YYYY)	Energy Use (kWh (thousand Watt-hours))	Cost - US Dollars (optional)
01/01/2007	01/31/2007	2900	\$ 181
02/01/2007	02/28/2007	2000	\$ 128
03/01/2007	03/31/2007	1800	\$ 112
04/01/2007	04/30/2007	1800	\$ 111
05/01/2007	05/31/2007	1500	\$ 92
06/01/2007	06/30/2007	1600	\$ 101
07/01/2007	07/31/2007	1950	\$ 132
08/01/2007	08/31/2007	1670	\$ 113
09/01/2007	09/30/2007	1550	\$ 107
10/01/2007	10/31/2007	1760	\$ 119
11/01/2007	11/30/2007	1857	\$ 125
12/01/2007	12/31/2007	2600	\$ 172

Applications

- Used to centralize and track utility data
 - Energy
 - Water
- Prioritizing energy efficiency efforts in multiple buildings
- Greenhouse gas accounting & carbon footprint
 - How this tool compliments the Climate Wise Greenhouse Gas Baseline Tool
- Streamline utility reporting for budgeting, management, etc.
- Verify and track energy performance improvements
- Achieving the ENERGY STAR label

ENERGY STAR Label

- Use Portfolio Manager to track utility data for a year
- Achieve a rating score of 75 or higher
- Have a Professional Engineer (PE) verify and validate
 - Statement of Energy Performance (SEP)
 - Data Checklist
- ENERGY STAR is awarded for a specific year
- No cost to apply
- Fees for PE services

Summary

- Earning the label satisfies a Platinum tier requirement
- Good tool for tracking energy and water utility data
- Compliments GHG baseline tool
