

# Cooling Rebate Application

No. on-line

**IMPORTANT:** It is the responsibility of the customer to send the **COMPLETED** application, including a copy of the dated sales invoice and W-9 tax form, to the address listed on the bottom of this application. Equipment must meet all eligibility requirements of the program as stated on the back of this form. Complete a separate form for each address where equipment is installed. **Rebates will not be paid for incomplete applications. Applications must be received by Platte River Power Authority within 60 days of the date equipment was installed. For rebate totals greater than \$5,000, approval by Platte River is required prior to installation.**

**Customer Information (To Be Completed by Customer)**

# Cooling Rebate Rules and Requirements

The *Cooling Rebate Program* offers incentives in the form of rebates for upgrading to energy efficient central air conditioners and heat pumps. The Program is open exclusively to electricity customers of Estes Park Light & Power (Town of Estes Park), Fort Collins Utilities (City of Fort Collins), Longmont Power & Communications (City of Longmont) and Loveland Water and Power (City of Loveland).

Equipment must be installed at a location that receives its electricity from one of the above utilities. Rebates are available for new and replacement equipment.

## Qualifying Equipment

Equipment must meet **all** of the following criteria to qualify for a rebate:

- Equipment must be a split system, single package central air conditioner or heat pump, or a packaged terminal air conditioner or heat pump. Window unit air conditioners and evaporative coolers are not eligible for rebates.
- Equipment must be powered by three-phase electricity.
- Equipment must have a minimum efficiency rating that meets the requirements in the table below.

## Equipment Requirements and Rebate Amounts

Size	Base Rebate		Bonus Rebate
	Minimum Efficiency	Rebate	
<b>Equipment Type: Unitary Air Conditioner or Heat Pump</b>			
64,999 Btu/h, or lower	13.0 SEER	\$65 per ton	\$4 per ton for each 0.1 EER above 11.0
65,000 Btu/h — 134,999 Btu/h	11.0 EER	\$50 per ton	\$4 per ton for each 0.1 EER above 11.0
135,000 Btu/h — 239,999 Btu/h	10.8 EER	\$50 per ton	\$4 per ton for each 0.1 EER above 10.8
240,000 Btu/h, or higher	10.0 EER	\$50 per ton	\$4 per ton for each 0.1 EER above 10.0
<b>Equipment Type: Packaged Terminal Air Conditioner or Heat Pump (PTAC/PTHP)</b>			
All sizes	11.0 EER	\$50 per ton	\$4 per ton for each 0.1 EER above 11.0

## Rebate Details

- Rebates increase by \$4 per ton for every 0.1 EER over the minimum efficiency requirement.
- Rebate checks will normally be made out to the customer of record (the party associated with the electric account) as of the date the application was signed. Rebate checks may be made out to a different party at the request of the customer of record.
- Platte River is not responsible for inaccurate information provided by contractors or dealers regarding equipment installed or the amount and/or conditions of the actual rebate.
- **Applications must be received by Platte River within 60 days of the installation date.**

## Application Details

- A separate application form must be completed for each address where equipment is installed. A single application form can be used for multiple units installed at the same address.
- Efficiency ratings for each model must be documented in one of the following ways: (1) by indicating the ARI reference number, or (2) by providing manufacturer documentation.
- **For rebate totals greater than \$5,000, approval by Platte River is required prior to installation.**
- Applications must be filled out completely and must include a copy of the dated sales invoice and rebate recipient's W-9 tax form.
- **Rebates will not be paid for incomplete applications.**

Platte River reserves the right to verify the sales transaction and inspect the equipment installation. Rebate qualifications and amounts are subject to change at any time. The *Cooling Rebate Program* may be cancelled without notice. Customers need to check with Platte River to determine the current status of the program prior to making application for a rebate.

Rebates are taxable, unless you are exempt, and will be reported to the IRS if greater than \$600. Platte River will report your rebate as income to you on IRS Form 1099 unless you have checked corporation or exempt tax status on the rebate application. Platte River is not responsible for any taxes that may be imposed on your business as a result of your receipt of a rebate.

## Verification of Lawful Presence in the United States

In compliance with Colorado House Bill 06S-1023, Platte River will require participants who are individuals or sole proprietors (i.e., not corporations or partnerships) applying for incentives to prove their lawful presence in the United States. To do so, the participant will be required to provide identification acceptable under the House Bill in addition to a signed affidavit indicating his or her lawful presence. Platte River cannot provide an incentive to a participant who is unwilling or unable to meet this requirement.

If you have any questions about the rebate application process or any aspect of the *Cooling Rebate Program*, visit our Web site at [www.prpa.org](http://www.prpa.org). You can also e-mail us at [CoolingRebate@prpa.org](mailto:CoolingRebate@prpa.org) or call us at 970-226-4000.

**Send completed application along with invoice and W-9 tax form to: Customer Services, Platte River Power Authority, 2000 East Horsetooth Road, Fort Collins, Colorado 80525-5721. Be sure to make a copy of the application for your records. Please allow six weeks.**

*Platte River Power Authority...providing reliable, low-cost and environmentally responsible electricity to the communities of Estes Park, Fort Collins, Longmont and Loveland since 1973.*
