

2008 Environmental Program Series

Watering with Conservation in Mind

Wednesday, June 4 from 7–9 p.m.
Fort Collins Senior Center, 1200 Raintree Dr.
(Pre-registration is not necessary for this free program)

Dan Fuhrman, owner of Fuhrman Landscape, will show you how to tune up your sprinkler system and introduce you to the newest technology for lawn watering. You'll find out about:

- Weather-based controllers—"Smart" controllers that schedule the watering for you;
- Rain sensors—a device that shuts off the controller when it rains; and
- Multi-jet rotary nozzles—a nozzle that fits into a sprayhead, transforming it into a high uniformity sprinkler.

Come learn ways to reduce your outdoor water use, keep your landscape more attractive and healthy, and save money on your water bill. You'll also find out how to inspect your sprinkler system to identify repairs and upgrades to reduce landscape water use.

Refreshments and door prizes provided.

For more information, call (970) 221-6877, TDD (970) 224-6003, e-mail ldaudney@fcgov.com or visit www.fcgov.com/utilities/eps.php.

Please help us make this a zero-waste event series.
