

Peak Oil: Challenges and Responses

**Wednesday, Feb. 11, 7–9 p.m.
Drake Centre, 802 W. Drake Rd.**

(Pre-registration is not necessary for this free program)

Many experts believe that world oil production is peaking and soon will not be able to meet rising demand. Take a Google-Earth tour of the world's energy hot-spots, learn the history and dynamics of oil supply and hear about problems we currently face.

Listen to expert speakers, including:

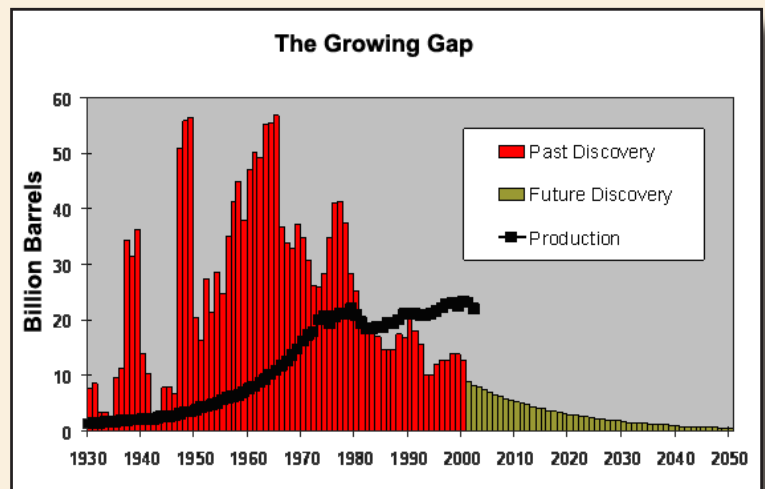

- *Steve Andrews* - Cofounder of ASPO-USA (Association for the Study of Peak Oil);
- *Morey Wolfson* - ASPO-USA Board of Directors and Energy Program Manager; and

Explore responses to issues such as:

- efficiency;
- substitute fuels;
- lifestyle changes;
- land-use planning; and
- electrification of transportation.

Refreshments and door prizes provided.

For more information, call (970) 221-6395, TDD (970) 224-6003, e-mail gschroeder@fcgov.com or visit www.fcgov.com/utilities/eps.php.

Please help us make this a zero-waste event series.
