Street Maintenance Reductions for 2009

Due to substantial reductions in Transportation revenues, the City of Fort Collins Pavement Management Program is suspending certain asphalt work.

The following areas were scheduled for the 2009 Slurry Seal Project. The concrete work in these areas is complete, and the asphalt patching, in some cases, has been completed as well. Unfortunately, the slurry seal application will not be completed this year. Asphalt patching will continue as weather and budgets allow.

It is our expectation that these areas will be a priority for slurry seal placement in 2010. However, substantial shortfalls in revenues are expected in 2010 as well, which may affect the completion of this program.
