The

Art of

NEIGHBORING

Introduce yourself!

Neighborhood Services in The City of Fort Collins and Off-Campus Life at Colorado State University partner yearly to help neighbors get to know one another.

While we certainly haven’t mastered the **ART OF NEIGHBORING**, we have learned that people are spending more time tuned into technology and less time getting to know each other face-to-face.

This **ART OF NEIGHBORING** brochure is a simple tool to use in the process of getting to know who lives near your home.

Why is it important to know your neighbors?

» You can borrow the egg or cup of sugar you need in the heat of baking your favorite recipe.

» The neighborhood is safer because you’re looking out for each other.

» You can take turns shoveling snow and taking in the newspaper when you’re out of town.

» You are more likely to solve concerns or issues with one another, rather than depending on outside intervention (i.e. police).

» You can share personal stories to support and celebrate with one another.

♦ ♦ ♦

So, fill out a card and introduce yourself to your neighbors behind you, above you and below you. It’s never too late!
