

Overall Format-We will host this event in partnership with the Colorado State University Center for Public Deliberation. We will use a similar format to our November, 2014 event that resulted in 98% satisfaction and much excitement from participants as it provides an opportunity for dialogue as well as quantitative data through the use of Turning Point technology. CPD students and some City staff will be stationed at tables in a note taking capacity and a facilitation capacity for the 8 person discussions.

9:00-9:25

Session 1: Introductions: CPD and Students, Staff, Role Explanation

9:25-9:35

City Manager's Office (CMO), Council and our office are all very interested in a citywide focus on relationships: creating them in some places and strengthening in others.

1. Neighbor to Neighbor
2. Between Neighborhood Leaders
3. Between Neighborhoods and City Organization (Government)

Review of November Neighborhood Leadership Event data

9:35-9:50

For the Love of Cities Presentation

9:50-10:10

Session 2: Table Discussion about For the Love of Cities led by students

10:10-10:20

Hopes, dreams "blue sky" exercise: what does "perfect" look like? Led by Amanda

10:20-10:35

Session3: Boundaries Led by Clay

Boundary Drawing Exercise on Maps at Tables

10:35-10:50

Session 4: Continuum of Formality of Geographic Engagement (Some communities call it Association Models)

10:50-11:15

Session 5: Vetting specific elements of geographic identity

Combination of Dialogue and Use of Turning Point Software (clickers) for quantitative feedback

Next Steps: We will share data with the City Manager's Office and will post on the Neighborhood Leadership Site; Quantitative data we can get up quickly; qualitative discussions take a bit longer. Special thank you to all who attended. The CPD.

Extra Time: Encourage you to spend a few minutes in dialogue at your tables, just connecting with one another, debrief today and your experience.

Survey: We will have a paper survey for attendees to complete at the tables.
