

City Park Tomorrow Community Feedback Summary

Prior to community outreach, the following inventory and analysis of City Park was done (this information can be found on this web site):

- A series of studies of how City Park is used were conducted and the results were mapped;
- A historical analysis of the park was completed along with documentation of those findings;
- A set of 10 project goals and 4 design concepts for City Park were developed.

Project Goals:

- Respect history and character of City Park
- Improve pedestrian safety near City Park pool
- Improve sense of place
- Incorporate new city park train
- Improve playground
- Additional and/or improved restroom
- Improved entry to Club Tico
- Safe convenient parking
- Enhanced bicycle and pedestrian connections/facilities
- Additional and/or enhanced shelters

Design Concepts:

- City Park Trolley Garden
- Lake Shore
- Park Center
- Existing Improved

Extensive community outreach was conducted to gather input from residents on the project goals and the design concepts.

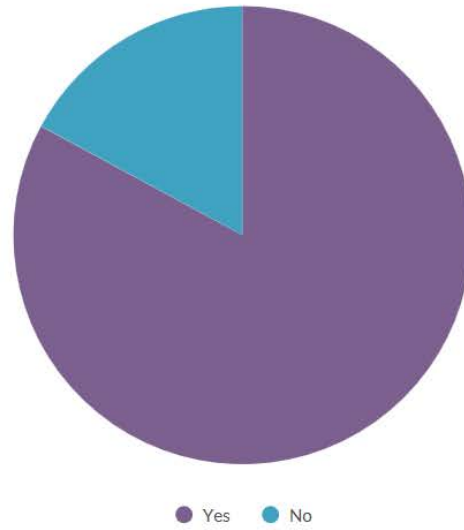

Community outreach has included:

- 2 Community meetings
- Online survey
- Informational tents set up during the City Park food truck events

The following graphics summarize public input received.

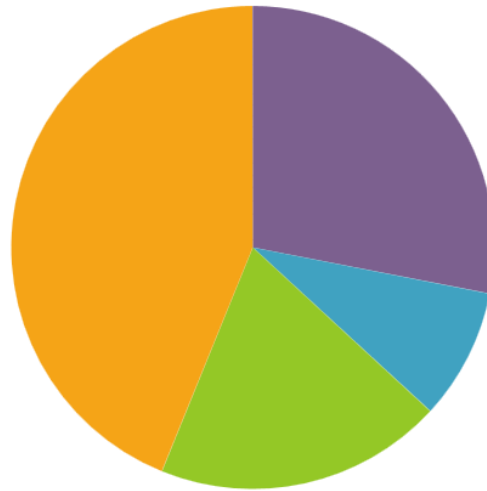

Do you agree with the project goals?

Value	Percent	Responses
Yes	82.9%	58
No	17.1%	12

Totals: 70

Of the four concepts presented, which is your favorite?

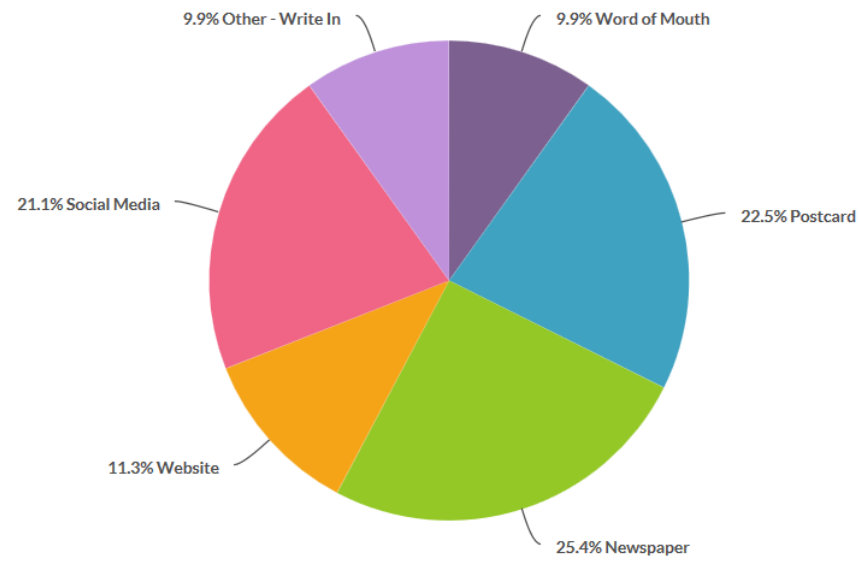

● Existing Improved
 ● Park Center
 ● Lake Shore
 ● Trolley Garden

Value	Percent	Responses
Existing Improved	28.1%	16
Park Center	8.8%	5
Lake Shore	19.3%	11
Trolley Garden	43.9%	25

Totals: 57
