James D. Reidhead

James D. Reidhead is a leading pioneer in restoring and maintaining Downtown as the vital heart of our community. Many thought Jim's efforts to restore Downtown's beautiful historic buildings in the early 1970s were foolish and Downtown was beyond saving. Not Jim. His relentless vision for vibrant Downtown led him to help form both the Downtown General Improvement District and the Downtown Development Authority, which are largely responsible for the look and feel of our Downtown today. Jim did not limit his efforts to the city's heart; he was instrumental in conserving both public and private open lands around Fort Collins. Fort Collins owes Jim Reidhead a huge thank you for his tireless efforts in shaping our city.

Richard S. Beardmore

Richard S. Beardmore was one of the most accomplished preservationists in Colorado. Dick passed away this year and we are extremely fortunate he made Fort Collins his life and home. The heart and soul of our city, Downtown, is a showcase for his lifetime of work. Some examples include the Linden Hotel, Armstrong Hotel, Northern Hotel, and most of the other restored buildings that give Old Town its charm and beauty.

The City of Fort Collins celebrates great places and people who create them.

Join us in promoting awareness of the importance of urban design, and its role in maintaining and enhancing the quality of life in our community.
