**WHAT IS AN ENHANCED TRAVEL CORRIDOR?**

An Enhanced Travel Corridor (ETC) is a roadway or set of roadways that emphasizes biking, walking, and transit. The intent is to provide active and sustainable travel options that improve the quality of life for the community.

The Transportation Master Plan (2011) lays out a network of ETCs, including the West Elizabeth corridor. The first ETC was the Mason Corridor, which now features MAX Bus Rapid Transit and the Mason Trail. The Harmony Road ETC Plan was completed in 2013.

**WHY ARE WE STUDYING WEST ELIZABETH?**

West Elizabeth is an important connection between the CSU Foothills and Main Campuses, as well as shopping centers and other destinations. The corridor already has high transit, bicycling, and walking demand, and an ETC is a comprehensive tool that can help address some of the challenges West Elizabeth Faces such as:

- Overcrowded buses
- A higher number of bike crashes than expected
- Sidewalks in some locations that do not meet standards and are not comfortable for walking

**WHAT WILL THE PLAN INCLUDE?**

The plan will include an assessment of existing conditions, a vision for the future, and recommendations for near-term and longer-term transportation improvements.
