## Complimentary Program

Café Columbine and Bakery, 802 W. Drake Rd., Suite 101  
Seating is limited. RSVP to [utilities@fcgov.com](mailto:utilities@fcgov.com) or (970) 221-6700.

## Smart Meter Fort Collins

Tuesday, Sept. 28, 9 a.m.–noon

Fort Collins Utilities is embarking on a 3-year project to enhance the local electric grid. The project will help Utilities control operational costs, improve already great reliability, address environmental policy goals, and prepare for increasing use of renewable energy and electric vehicles.

Customers will have access to more information so they can make informed financial and environmental decisions around how and when they use energy.

Hear from the following speakers about the details of this exciting project and the potential benefits to you and your business:

- Steve Catanach, *Light & Power Director* – **Overview of Smart Meter Fort Collins**
- Pablo Bauleo, *Energy Services Specialist* – **What is Smart Grid?**
- Mark Michael, *Enspira Solutions* – **National Perspective**
- Dennis Sumner, *Smart Meter Fort Collins Project Manager* – **Fort Collins Initiatives**
- Gary Schroeder, *Energy Services Engineer* – **What Does it Mean for the Customer?**

For more information, contact Dennis Sumner at (970) 221-6718 or [dsumner@fcgov.com](mailto:dsumner@fcgov.com).

To learn about other programs in the series, call (970) 221-6700, visit [fcgov/beps](http://fcgov/beps), e-mail [utilities@fcgov.com](mailto:utilities@fcgov.com) or TDD (970) 224-6003. Refreshments provided. Please help us make this a zero-waste event.
