

# 2010 Business Environmental Program Series.

## Complimentary Program

Café Columbine and Bakery, 802 W. Drake Rd., Suite 101

Seating is limited. RSVP to [utilities@fcgov.com](mailto:utilities@fcgov.com) or (970) 221-6700.

## Water Smart Landscapes

Tuesday, Nov. 9, 9 a.m.–noon

As water supplies shrink and rates rise, practicing water efficiency can give your business that extra edge. Join us to learn ways to enhance irrigation efficiency, improve soil health and design a waterwise garden. Wholesale irrigation distributors will be on hand to showcase their products for water-smart irrigation.

### *Soil Savvy: A Key to Successful Front Range Gardening*

- Dr. Jean Reeder, CSU Soil Testing Lab consultant and CSU Extension Master Gardener Program instructor, will discuss soil testing and how to turn poor soil into healthy soil.

### *Irrigation and Water Conservation*

- Dave Cooper, CSU, will explore the varied possibilities of a waterwise garden style with striking examples from Front Range gardens.

### *Waterwise Landscape Design*

- David Whiting, Affordable Water Management Solutions, will share the latest techniques and technologies for water conservation in the landscape.

For more information, contact Laurie D'Audney at (970) 221-6877 or [ldaudney@fcgov.com](mailto:ldaudney@fcgov.com). Please help us make this a zero-waste event.
