

## Residential Green Energy Agreement

I hereby agree to participate in the Fort Collins Utilities Green Energy Program. I understand that my electric bill will include an increase of 2.65 cent per kilowatt-hour (kWh) with PILOTS\* to help cover the costs of purchasing renewable energy. I understand I will be notified of price changes and will be given an opportunity to change my subscription at that time. I understand that if, at some time in the future, I am no longer a customer of Fort Collins Utilities for any reason, I will be under no further obligation.

### Contracted level of participation:

- ☐ I agree to purchase the equivalent of my electricity use from renewable energy for the account number(s) indicated above.
- ☐ I agree to purchase \_\_\_\_\_ block(s) of renewable energy (200 kWh per block) for \$5.30 per block per month, with PILOTS.\*

*\*PILOTS: A 6 percent PILOT (payment in lieu of taxes) has been added to electric, green energy, water and wastewater rates. This is a payment to the City's general fund to replace revenue the City would receive from the Utilities in taxes and franchise fees if the utilities were privately owned. Without PILOTS, the Green Energy Program rate is 2.5 cents per kWh.*

## Fort Collins Utilities' Green Energy Program

### PRODUCT CONTENT LABEL<sup>1</sup>

Fort Collins Utilities' Green Energy is sold in blocks of 200 kilowatt-hours (kWh) or 100% of electricity usage for residential customers; and in blocks of 1,000 kWh or 100% of electricity usage for non-residential customers. This table provides the renewable resource mix in the Green Energy Program in 2018 as well as the projected resource mix in 2019.

#### Green-e Energy Eligible New Renewables<sup>2</sup> in the Green Energy Program

	2018 - Historic		2019 - Prospective	
	%	Generation Location	%	Generation Location
Wind	100%	Colorado	100%	Colorado

<sup>1</sup> "2019-Prospective" figures reflect the renewables that we have contracted to provide. Actual figures may vary according to resource availability. We will annually report to you before April 1 of next year in the form of a Historic Product Content Label the actual resource mix of the electricity you purchased. "2018-Historic" figures reflect the actual power delivered to Green Energy Program customers in 2018.

<sup>2</sup> New Renewables come from generation facilities that began commercial operation within the past 15 years.

For comparison, the current average mix of resources supplying Fort Collins Utilities Non-Renewable Subscribers includes: Coal (57.2%), Natural Gas (0.6%), Hydroelectric (18.8%), Renewables (14.2%) and Other (9.2% - unspecified purchases). This is based on the resource mix provided to Fort Collins Utilities by Platte River Power Authority for the year 2018 and includes Distributed City Renewables.

The average home in the United States uses 10,399 kWh per month. [Source: U.S. EIA, 2017]
