Engage

Volunteer Management System

engage.fcgov.com

Features

❖ **Volunteer Profile and Dashboard**- Volunteer profiles are pulled from your volunteer application. You can manage your own interests, photo, emergency contact information, volunteer hours, contact information and more. The dashboard pulls upcoming events that match your history and interests.

❖ **Calendar**- Calendar offers advanced search and list options. You'll see the opportunities you are able to sign up for and match your preferences.

❖ **Get Engaged**- track your volunteer skills and interests and stay in the loop. You'll have access to private discussion forums and messaging allowing you to work with other like-minded people to exchange great ideas.

❖ **Available Anywhere / Mobile Friendly**- a cloud based web application available to anyone, anywhere, anytime with an internet connection. There is no software to install and updates are automatic. In addition, all Engage user interfaces are mobile friendly working beautifully on phones, tablets, and laptops.

❖ **Communications**- Engage has a built in communications model that also protects the privacy of users by hiding your email and phone numbers where appropriate. System Administrators and Volunteers can easily communicate with all or a subset of the people associated with an activity with a simple email.
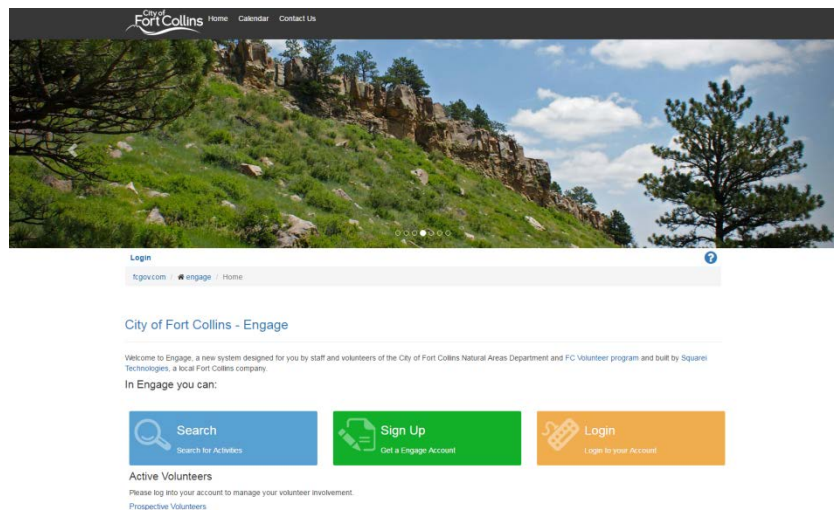

Benefits

- In use by Natural Areas since 2013 and has a proven track record of success within the City
- Sponsored by Volunteer Services in Human Resources
- Saves valuable time, so you can spend time building relationships and help record your impact
- Training and support provided
- You can manage all of your activities in one place if you volunteer for multiple departments
- Free program registration for the public, in addition to a volunteer system
- Intuitive and easy to learn
- Exciting enhancements planned for 2017
