

THE ROAD TO **zero** **waste** FORT COLLINS

Join Us for Community Conversations on the Future of Waste Reduction in Fort Collins

The City of Fort Collins is embarking on developing a waste reduction and recycling plan to evaluate the merits, prospects, and potential of pursuing a "Road to Zero Waste" approach, and we need input from residents, businesses, non-profits, and service providers.

Please drop in, enjoy some refreshments, and take in presentations by City staff, Zero Waste Associates, and local businesses.

Join the Conversation!
