

Transformer Cabinet Mural Project 2017
Artist: Poudre Community Academy
Location: 825 Aztec Dr. (SP 37711)

PCA CommUnity Themed Zentangle

We plan to start our concept with different color schemes of splatter paint, such as warm/cool, complementary, and analogous, that will vary side to side. We will use our observational and mapping skills to transfer our images of shapes, lines, eyes, nature and random objects onto the splatter paint. Using black paint, we will refine our projected images and make any other quick changes to help contrast the main image from the background.
