

**Transformer Cabinet Mural Project 2018**  
**Artist: Chris Bates**  
**Location: 224 N. Sherwood (SP# 46478)**

**ADAPTIVITY**

This design is under-painted with images of raccoon habitat. Trash bins, bird feeders, storm drains and holes in trees. It will be covered over with black and white line drawings of raccoons. The white lines aren't shown because there was no way to do that with the mock ups but they will add some pop to the box!

**“Paint Your Veggies”**

The box is under-painted with one side being garden veggies and the other the white place from Georgia O’Keefe paintings. Veggies are drawn over with hands watering and the white place is drawn over by hands painting. Black and white lines will be present and poppin’!
