

Transformer Cabinet Mural Project 2013

Artist: Laurie Beth Zuckerman

Location: 2 cabinets at Prospect and Riverside, 1672 and 1678 Riverside, west side of the apartments and the southwest corner by the parking lot.

North Cabinet: Winter

Winter images of Bobb, our Old town neighborhood tailless fox. Snow will have Bobb's footprints and colorful bluish shadows. Winter Juncos feed on the ground around his feet, while Magpies and Downy Woodpeckers and other winter birds flock around Bobb. The top side of the transformer would have a bird's eye view of a female fox with tail, curled up sleeping in the snow. Edora Park just south of these two transformers had a fox den a couple of years ago.

Location: 2 cabinets at Prospect and Riverside, 1672 and 1678 Riverside, west side of the apartments and the southwest corner by the parking lot.

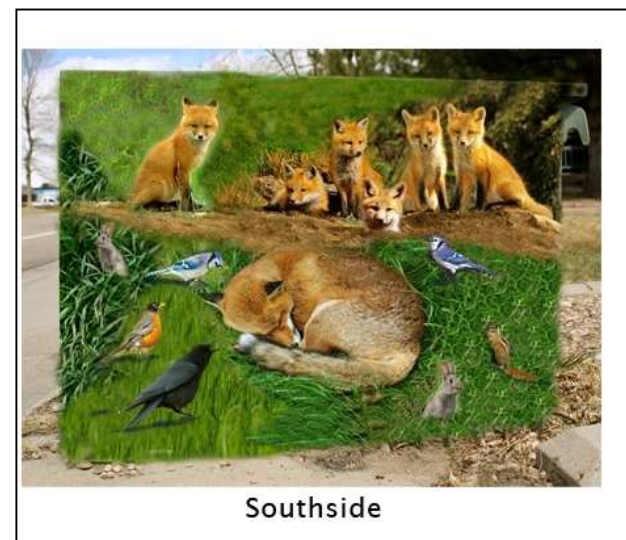

South Cabinet: Springtime

Springtime with Bobb, the neighborhood tailless fox and his baby fox kits. Images would show the foxes amongst the grasses and flowers with squirrels, rabbits, birds, and butterflies to amuse them.
