HOMEOWNER AFFIDAVIT

Homeowners of a **DETACHED** single-family home may personally perform and /or act as their own general contractor for any work on their **PRIMARY** residence. Permit requirements are applicable. If said homeowner hires and pays anyone for work that requires a City licensed contractor, the City licensed contractor needs to be listed on the building permit application, and will need to be current on City license and insurance requirements before the building permit can be issued.

Homeowners of an **ATTACHED** single-family home (townhouse, condominium or duplex), may perform **LIMITED “MINOR ALTERATIONS AND REPAIRS”** by City Code as follows:

“A building owner and any unpaid volunteers or paid workers employed by said owner who perform only minor alterations and repairs to such building, provided that all such work is under the continuous personal supervision of said owner, and further provided that no building owner, or unpaid volunteer or paid worker employed by said owner, may engage in the following types of work without obtaining the appropriate contractor license.”

Furthermore, the work must be limited to minor alterations and repairs, which, **DO NOT** include:

1. Any alterations/installations involving, fire-resistant assemblies, alterations to primary and secondary framework; electrical, plumbing, or mechanical systems; and replacement of more than 100 sq. ft. of roofing.

**PAID WORKERS**

Regardless of ownership status, **paid** non-owner worker(s) or contractors performing overall project supervision **MUST BE A CITY LICENSED GENERAL CONTRACTOR.** Any paid specialized trades that perform any one of the following: structural wood framing, roofing, electrical, plumbing, or HVAC, **MUST BE SUB-CONTRACTORS** licensed by the City.

**APPLICATIONS & PENALTIES**

A homeowner acting as their own “general contractor” for work on their own primary residence, must submit a notarized City Homeowner Affidavit form to Building Services before a building permit can be issued. Failure to comply with the above conditions can result in a “Stop Work” order on the project, permit revocation, forfeiture of fees, and a court summons.

**EXEMPTIONS**

(1) Any homeowner of an attached dwelling and any unpaid volunteers or paid workers employed by said owner who perform only minor alterations and repairs to such building, provided that all such work is under the continuous personal supervision of said owner, and further provided that **NO homeowner of an attached dwelling, or unpaid volunteer or paid worker employed by said owner, may engage in the following types of work without obtaining an appropriately licensed City contractor:**

(a) Alterations to the primary or secondary structural frame work (except for the repair and replacement of existing window and doors, provided that such repair or replacement does not create larger openings or greater spans for such headers);

(b) Alterations to fire-resistant assemblies as defined in the building code,

(c) Alterations to or the installation of electrical, plumbing or mechanical systems, (except for electrical/plumbing fixture replacement in the same location as original).

(d) Replacement/installation of more than a total of one (1) square (100 square feet) of roofing.
