# 100% Renewable Electricity Resolution

- Direction:
  - Community & Council input
  - Customer commitments
  - Align with existing goals
- Input to planning processes
- Impacted by resources changes

2018

2019

2020

2021

Integrated Resource Plan (Platte River)

Climate Action Plan and Energy  
Policy Update (Proposed)

Increase in renewable resources (>50% of portfolio)

## July/August

- **Council Direction**
- **Community Outreach**
  - Fort Collins Partners for Clean Energy (FC4PCE)
  - Energy Board
  - Chamber Local Legislative Affairs Committee (LLAC)
- **Triple Bottom Line Scan**

## September

- **Draft Resolution Available (9/6)**
- **Community Outreach**
  - Youth Advisory Board (9/5)
  - Affordable Housing Board (9/6)
  - CEO Round Table (9/11)
  - FCP4CE (9/11)
  - Energy Board (9/13)
  - Chamber LLAC (9/14)
  - Air Quality Advisory Board (9/17)
  - Economic Advisory Commission (9/19)
  - Natural Resources Advisory Board (9/19)
  - CAP Community Advisory Committee (9/20)

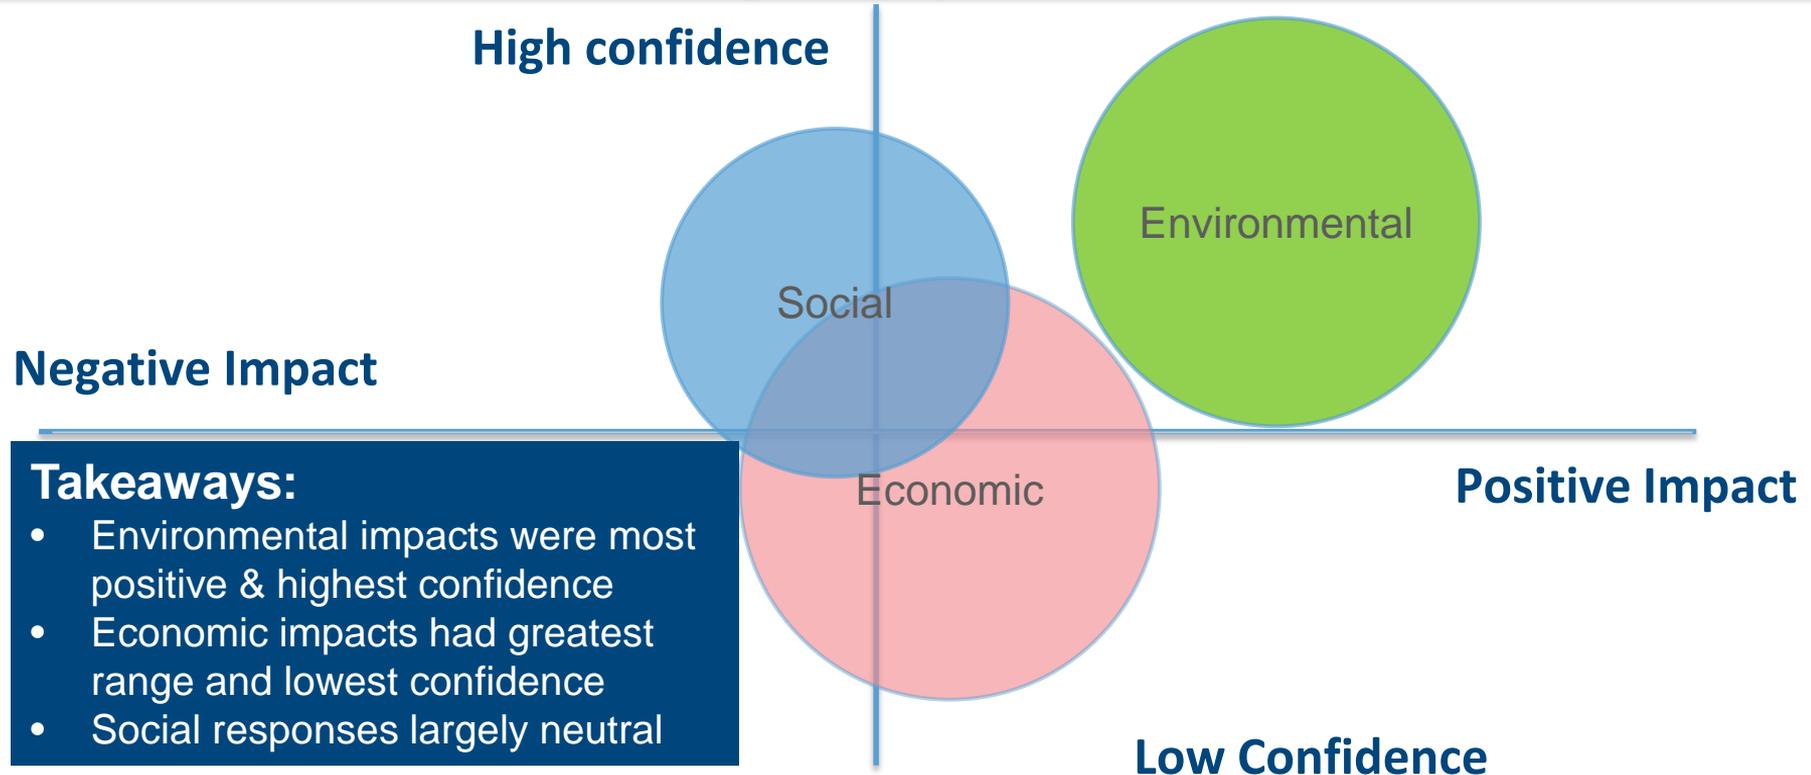

## Areas of Agreement

- Explicitly establish a goal in Section 2
- Establish more frequent check-ins, e.g., annual
- Reliability cannot be compromised
- Appreciated the public release of the draft Resolution
- Definitions are important
- Assess the lifecycle costs and impacts of all forms of energy

## Areas of Tension

- Which comes first – goal or plan
  - Costs
  - Reliability
  - Feasibility
- Definition of renewable electricity
  - Hydroelectricity
- Quantify reliability and affordability like 100% renewable electricity is

# Triple Bottom Line Scan Results

- Requested Action
  - What feedback would CAP CAC like to give to Council?
  - What opportunities and challenges does the CAC foresee with this Resolution?
- Next Steps
  - Council – October 2

100% Renewable Electricity
