

## Twin Silo Park By Jill MacKay/ 2017

The photo-luminescent stone mosaic during the day.

The photo-luminescent stone mosaic at night.

Local artist Jill MacKay worked with the Twin Silo Park Project Team to develop a concept for art at the site of this new park and its natural water feature of the creek. The mosaic, *Wave Walk*, highlights the creek play area and is located in the sidewalk at either end of the bridge. It also takes advantage of a dark location in the park so that the photo-luminescent stones can glow and be enjoyed at nighttime.
