Project Name

Light Industrial campus at 301 E Lincoln Ave
CDR230079

Applicant

Craig Mckee
970-388-1969
craig@3squareart.com

Planner: Clark Mapes

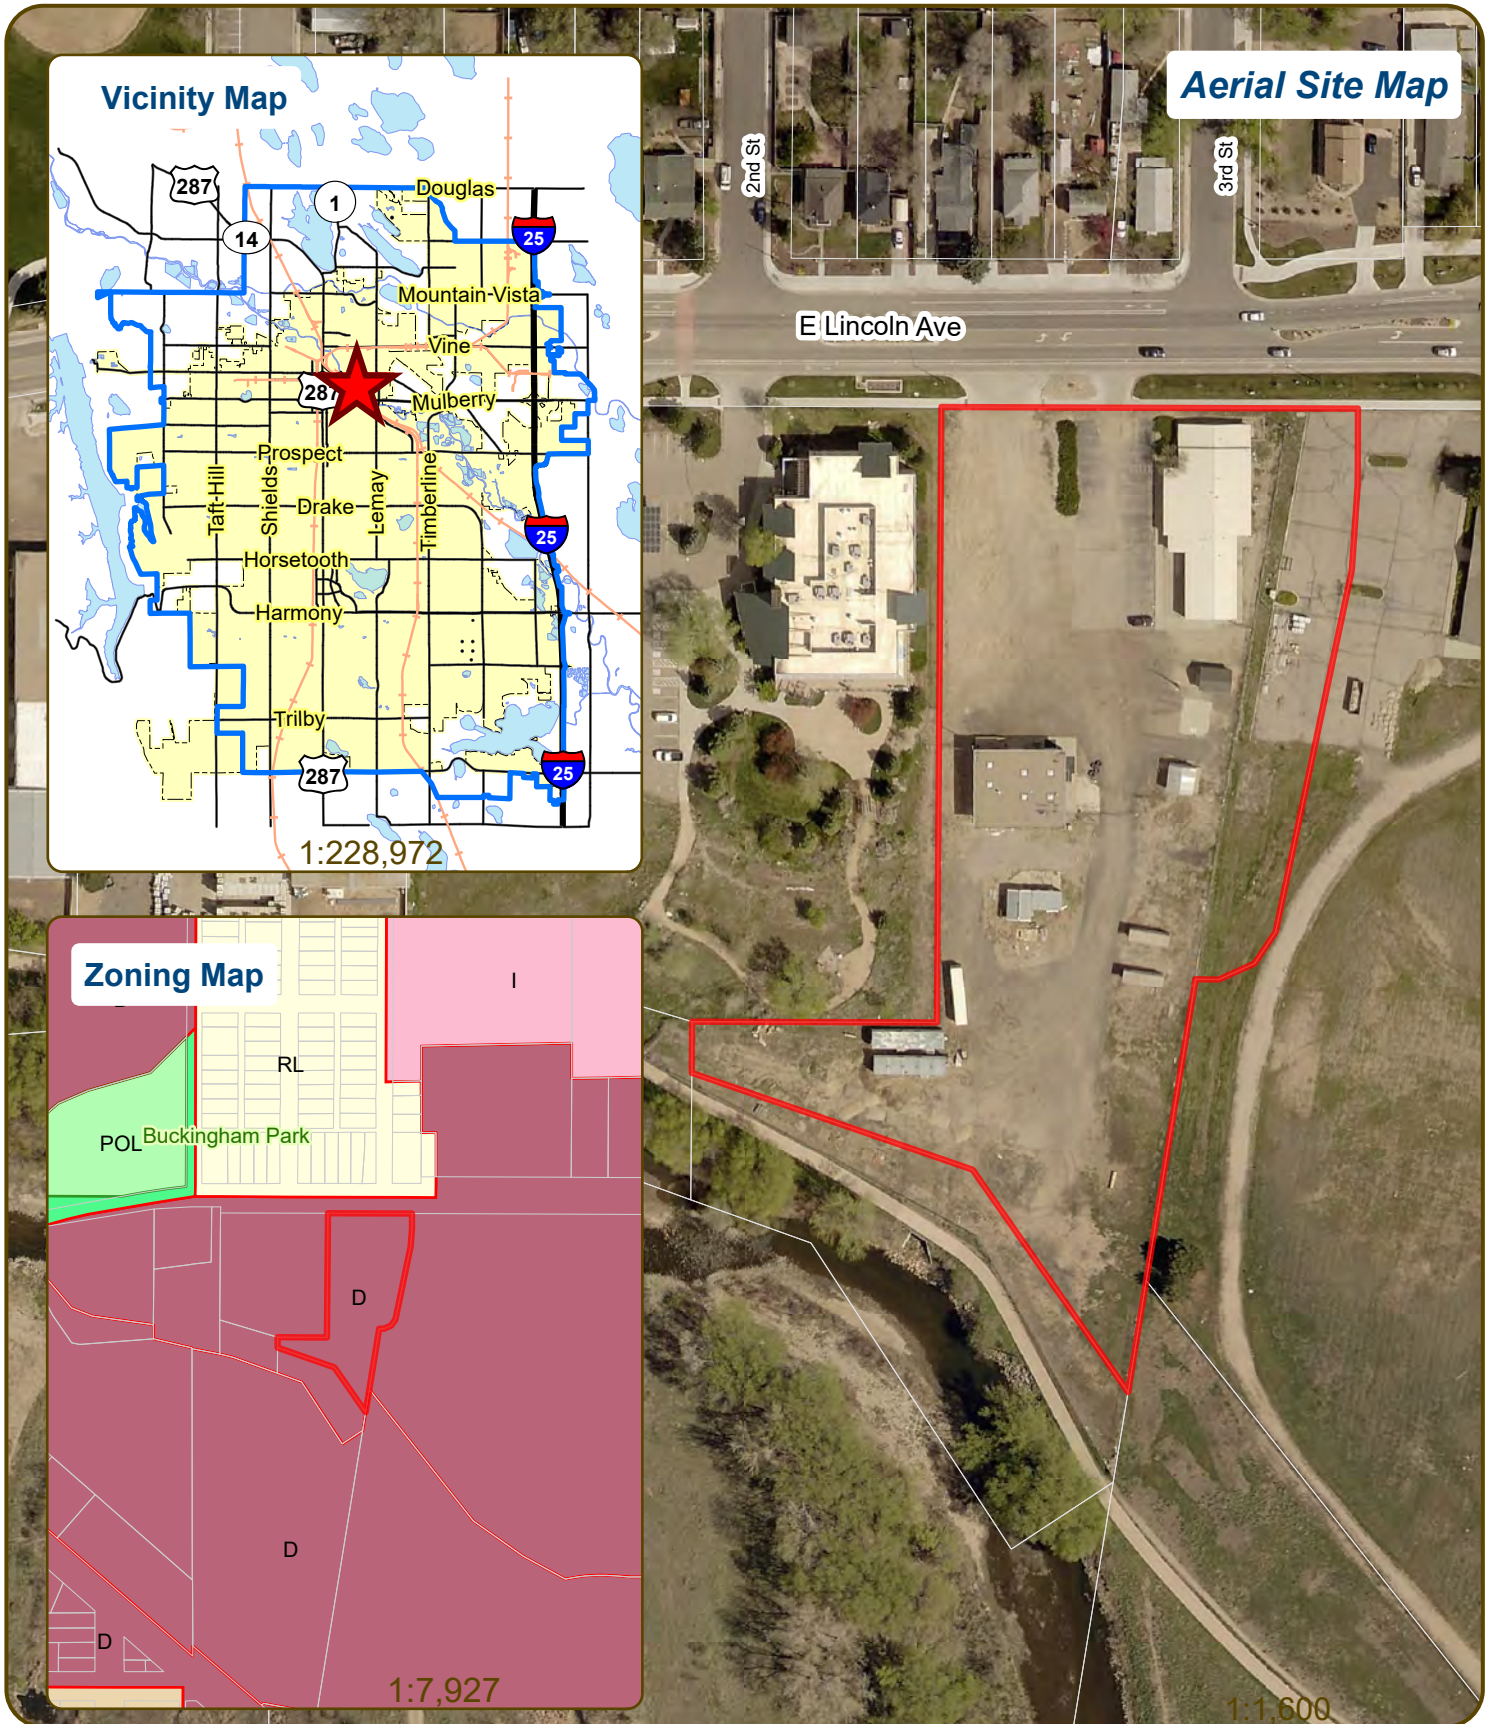

Engineer: Tim Dinger

DRC: Brandy Bethurem Harras

Description

This is a request to mixed use campus at 301 E Lincoln Ave. (parcel # 9712416001). The applicant is proposing a 3 building innovation campus with office laboratory and light manufacturing uses. The buildings will be connected through a heavily native landscaped campus with walks and small plazas. The first building built will be a 10,000sf building along Lincoln. The remaining two buildings will be phased. The campus will be connected to the Insitu campus to the south through crushed fines trails. Access is taken from E Lincoln Ave to the north. The site is approximately 0.37 miles north of E Mulberry St and approximately 0.37 miles west of N Lemay Ave. The property is within the Downtown District (D), Innovation Subdistrict and the project would be subject to Administrative (Type 1) Review.

Light Industrial campus at 301 E Lincoln Ave Office/Laboratory/Light Manufacturing

The City makes no representation or warranty as to its accuracy, timeliness, or completeness, and in particular, its accuracy in labeling or displaying dimensions, contours, property boundaries, or placement of location of any map features thereon. THE CITY OF FORT COLLINS MAKES NO WARRANTY OF MERCHANTABILITY OR WARRANTY FOR FITNESS OF USE FOR PARTICULAR PURPOSE, EXPRESSED OR IMPLIED, WITH RESPECT TO THESE MAP PRODUCTS OR THE UNDERLYING DATA. Any users of these map products, map applications, or data, accepts same AS IS, WITH ALL FAULTS, and assumes all responsibility of the use thereof, and further covenants and agrees to hold the City harmless from and against all damage, loss, or liability arising from any use of this map product, in consideration of the City's having made this information available. Independent verification of all data contained herein should be obtained by any users of these products, or underlying data. The City disclaims, and shall not be held liable for any and all damage, loss, or liability, whether direct, indirect, or consequential, which arises or may arise from these map products or the use thereof by any person or entity.

CONCEPTUAL REVIEW: APPLICATION

General Information

All proposed development projects begin with Conceptual Review. Anyone with a development idea can schedule a Conceptual Review meeting to get feedback on prospective development ideas. At this stage, the development idea does not need to be finalized or professionally presented. However, a sketch plan and this application must be submitted to City Staff prior to the Conceptual Review meeting. The more information you are able to provide, the better feedback you are likely to get from the meeting. Please be aware that any information submitted may be considered a public record, available for review by anyone who requests it, including the media. The applicant acknowledges that they are acting with the owner's consent.

Conceptual Reviews are scheduled on three Thursday mornings per month on a "first come, first served" basis and are a free service. One 45 meeting is allocated per applicant and only three conceptual reviews are done each Thursday morning. A completed application must be submitted to reserve a Conceptual Review time slot. Complete applications and sketch plans must be submitted to City Staff on Thursday, no later than end of day, two weeks prior to the meeting date. Application materials must be e-mailed to preappmeeting@fcgov.com. If you do not have access to e-mail, other accommodations can be made upon request.

At Conceptual Review, you will meet with Staff from a number of City departments, such as Community Development and Neighborhood Services (Zoning, Current Planning, and Development Review Engineering), Light and Power, Stormwater, Water/Waste Water, Advance Planning (Long Range Planning and Transportation Planning) and Poudre Fire Authority. Comments are offered by staff to assist you in preparing the detailed components of the project application. There is no approval or denial of development proposals associated with Conceptual Review. At the meeting you will be presented with a letter from staff, summarizing comments on your proposal.

BOLDED ITEMS ARE REQUIRED *The more info provided, the more detailed your comments from staff will be.*

Contact Name(s) and Role(s) (Please identify whether Consultant or Owner, etc) _____

Business Name (if applicable) _____

Your Mailing Address _____

Phone Number _____ Email Address _____

Site Address or Description (parcel # if no address) _____

Description of Proposal (attach additional sheets if necessary) _____

Proposed Use _____ Existing Use _____

Total Building Square Footage _____ S.F. Number of Stories _____ Lot Dimensions _____

Age of any Existing Structures _____

Info available on Larimer County's Website: http://www.co.larimer.co.us/assessor/query/search.cfm

If any structures are 50+ years old, good quality, color photos of all sides of the structure are required for conceptual.

Is your property in a Flood Plain? Yes No If yes, then at what risk is it? _____

Info available on FC Maps: http://gisweb.fcgov.com/redirect/default.aspx?layerTheme=Floodplains.

Increase in Impervious Area _____ S.F.

(Approximate amount of additional building, pavement, or etc. that will cover existing bare ground to be added to the site)

Suggested items for the Sketch Plan:

Property location and boundaries, surrounding land uses, proposed use(s), existing and proposed improvements (buildings, landscaping, parking/drive areas, water treatment/detention, drainage), existing natural features (water bodies, wetlands, large trees, wildlife, canals, irrigation ditches), utility line locations (if known), photographs (helpful but not required). Things to consider when making a proposal: How does the site drain now? Will it change? If so, what will change?

301 East Lincoln Narrative

The applicant is proposing a 3 building innovation campus with office laboratory and light manufacturing uses. The buildings will be connected through a heavily native landscaped campus with walks and small plazas. The first building built will be a 10K s.f. building along Lincoln. The remaining two buildings will be phased. The campus will be connected to the Insitu campus to the south through crushed fines trails.

There are two existing buildings on site. The building closest to Lincoln will be demolished. The second building will remain for the first phase and be removed with the subsequent phases of building construction.

Access will be off of east Lincoln with one full movement and one limited movement access points.

Stormwater requirements will be handled at the natural low point of the site to the east of the proposed improvements.
