## 4) Post Submittal Information:

### **Checklist & Materials Submitted**

Review of pre-application materials: 2 weeks.

Meeting will be scheduled if application and materials are determined complete.

### **Staff Findings**

After the pre-application meeting, the staff will furnish the applicant with written comments and recommendations regarding the proposal to inform and assist the applicant prior to preparing the formal permit application.

The staff may provide the applicant with a "critical issues" list which will identify those critical issues which have surfaced in the pre-application review process as issues that must be resolved during the review process of the formal application. To the extent there is a misunderstanding or misrepresentation of these issues, the opinion of the staff may change during development review.

### **14 Day Comment Period**

Upon the Director deeming the application for a pre-application area or activity review as complete, written notice shall be mailed.

The Director shall not issue a FONSI determination pursuant to Section 6.6.5 for at least fourteen (14) days from the date of mailing to allow for any person to submit written comments for the Director's consideration.

### **Determination Timeline**

The Director shall make a determination within 28 days following this preapplication review being completed. The 28-day timeline includes the 14 day comment period allocated for neighbor feedback.

## 5) Determination of Applicability of Regulations – FONSI

### **Full Permit NOT REQUIRED**

If the Director has made a FINDING OF NO SIGNIFICANT IMPACTS, or FONSI, a permit pursuant to these Regulations is not required. However, the proposed development plan may be subject to a different Land Use Code development review process. If the Director's decision includes consideration of proposed mitigation, the applicant must provide to the City a guarantee in the form of a development bond, performance bond, letter of credit, cash, certificate of deposit or other city approved means to guarantee the completion of all mitigation to be constructed as shown on the approved development plan.

### **Full Permit REQUIRED**

If the Director determines a FONSI is not appropriate, the proposed development plan requires a FULL permit and is subject to these Regulations. The Director shall provide the applicant with written comments, to the extent such comments differ from comments provided for any conceptual review, regarding the proposal to inform and assist the applicant in preparing components of the permit application; including a Full Permit Submittal Checklist pursuant to Section 6.6.7, and additional research questions to address common review standards pursuant to Section 6.7.1.

The Director shall provide the written determination to the applicant by email if an email address has been provided and promptly mail a copy of the written determination, at the applicant's cost, to the applicant and to property owners within one- thousand ( 1000) feet in all directions of the location of the proposed development plan as determined by the Director in their reasonable discretion and shall also be posted on the City's website at [www.fcgov.com](http://www.fcgov.com).

### **Appeal Process**

All findings are subject to appeal as outlined in Chapter 2, Article II Division 3 of the City Code.
