

IT'S WHAT'S BEHIND THE MASK THAT MATTERS MOST.

Covering our mouths and noses in public can help protect ourselves and those around us from COVID-19.

Please remember wearing a facial covering is no cause for racial profiling and/or discrimination, violence, or removal from public areas.

Let's all do our part in protecting each other—these are difficult times for everyone, regardless of race, ethnicity, age, or ability.

Let's not cause more fear...neighbor to neighbor, we're all in this together!
