

## The Colorado Safety Stop Decision

Use the following to help you make a choice to do the Colorado Safety Stop...or not.

As you approach an intersection while riding a bicycle or scooter:

### At Stop Sign

Are other road users approaching or already stopped?

**YES**

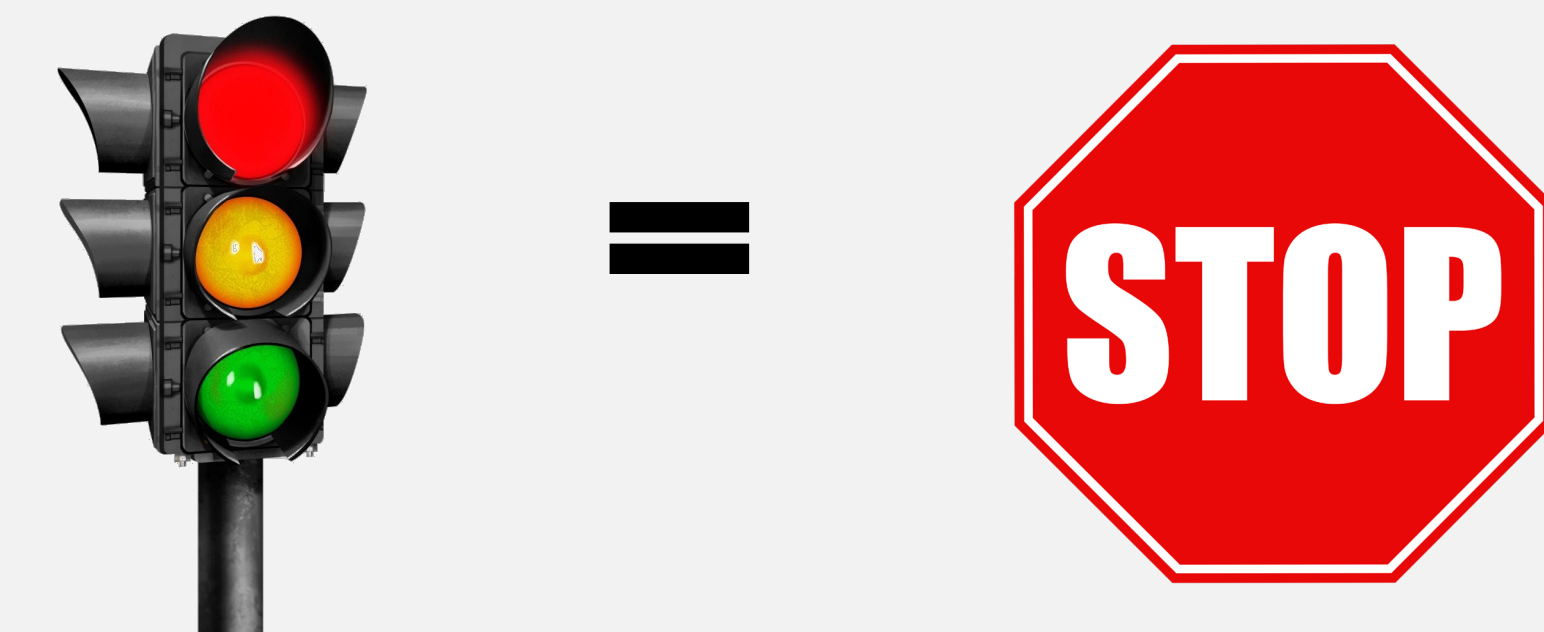

Stop and  
wait your  
turn.

**NO**

Proceed  
through  
slowly.

### At Signal

Stop and verify intersection is clear  
before going straight or turning right or  
wait for a green light.

Remember: you can always opt to not do the Colorado Safety Stop, and this law applies to those aged 15+ (or those with an adult).
