

The **2050 Regional Transportation Plan** is the long-range transportation vision for the Fort Collins, Loveland, and Greeley urbanized areas.

- What projects should be prioritized?
- How do we keep up with expected growth in population and jobs?
- How do we address and meet air quality and greenhouse gas emissions reductions?

Context:

What are we trying to achieve with the RTP? What does our region look like today?

Trends:

How has our region trended and how do we expect that trend to change in the future?

Funding:

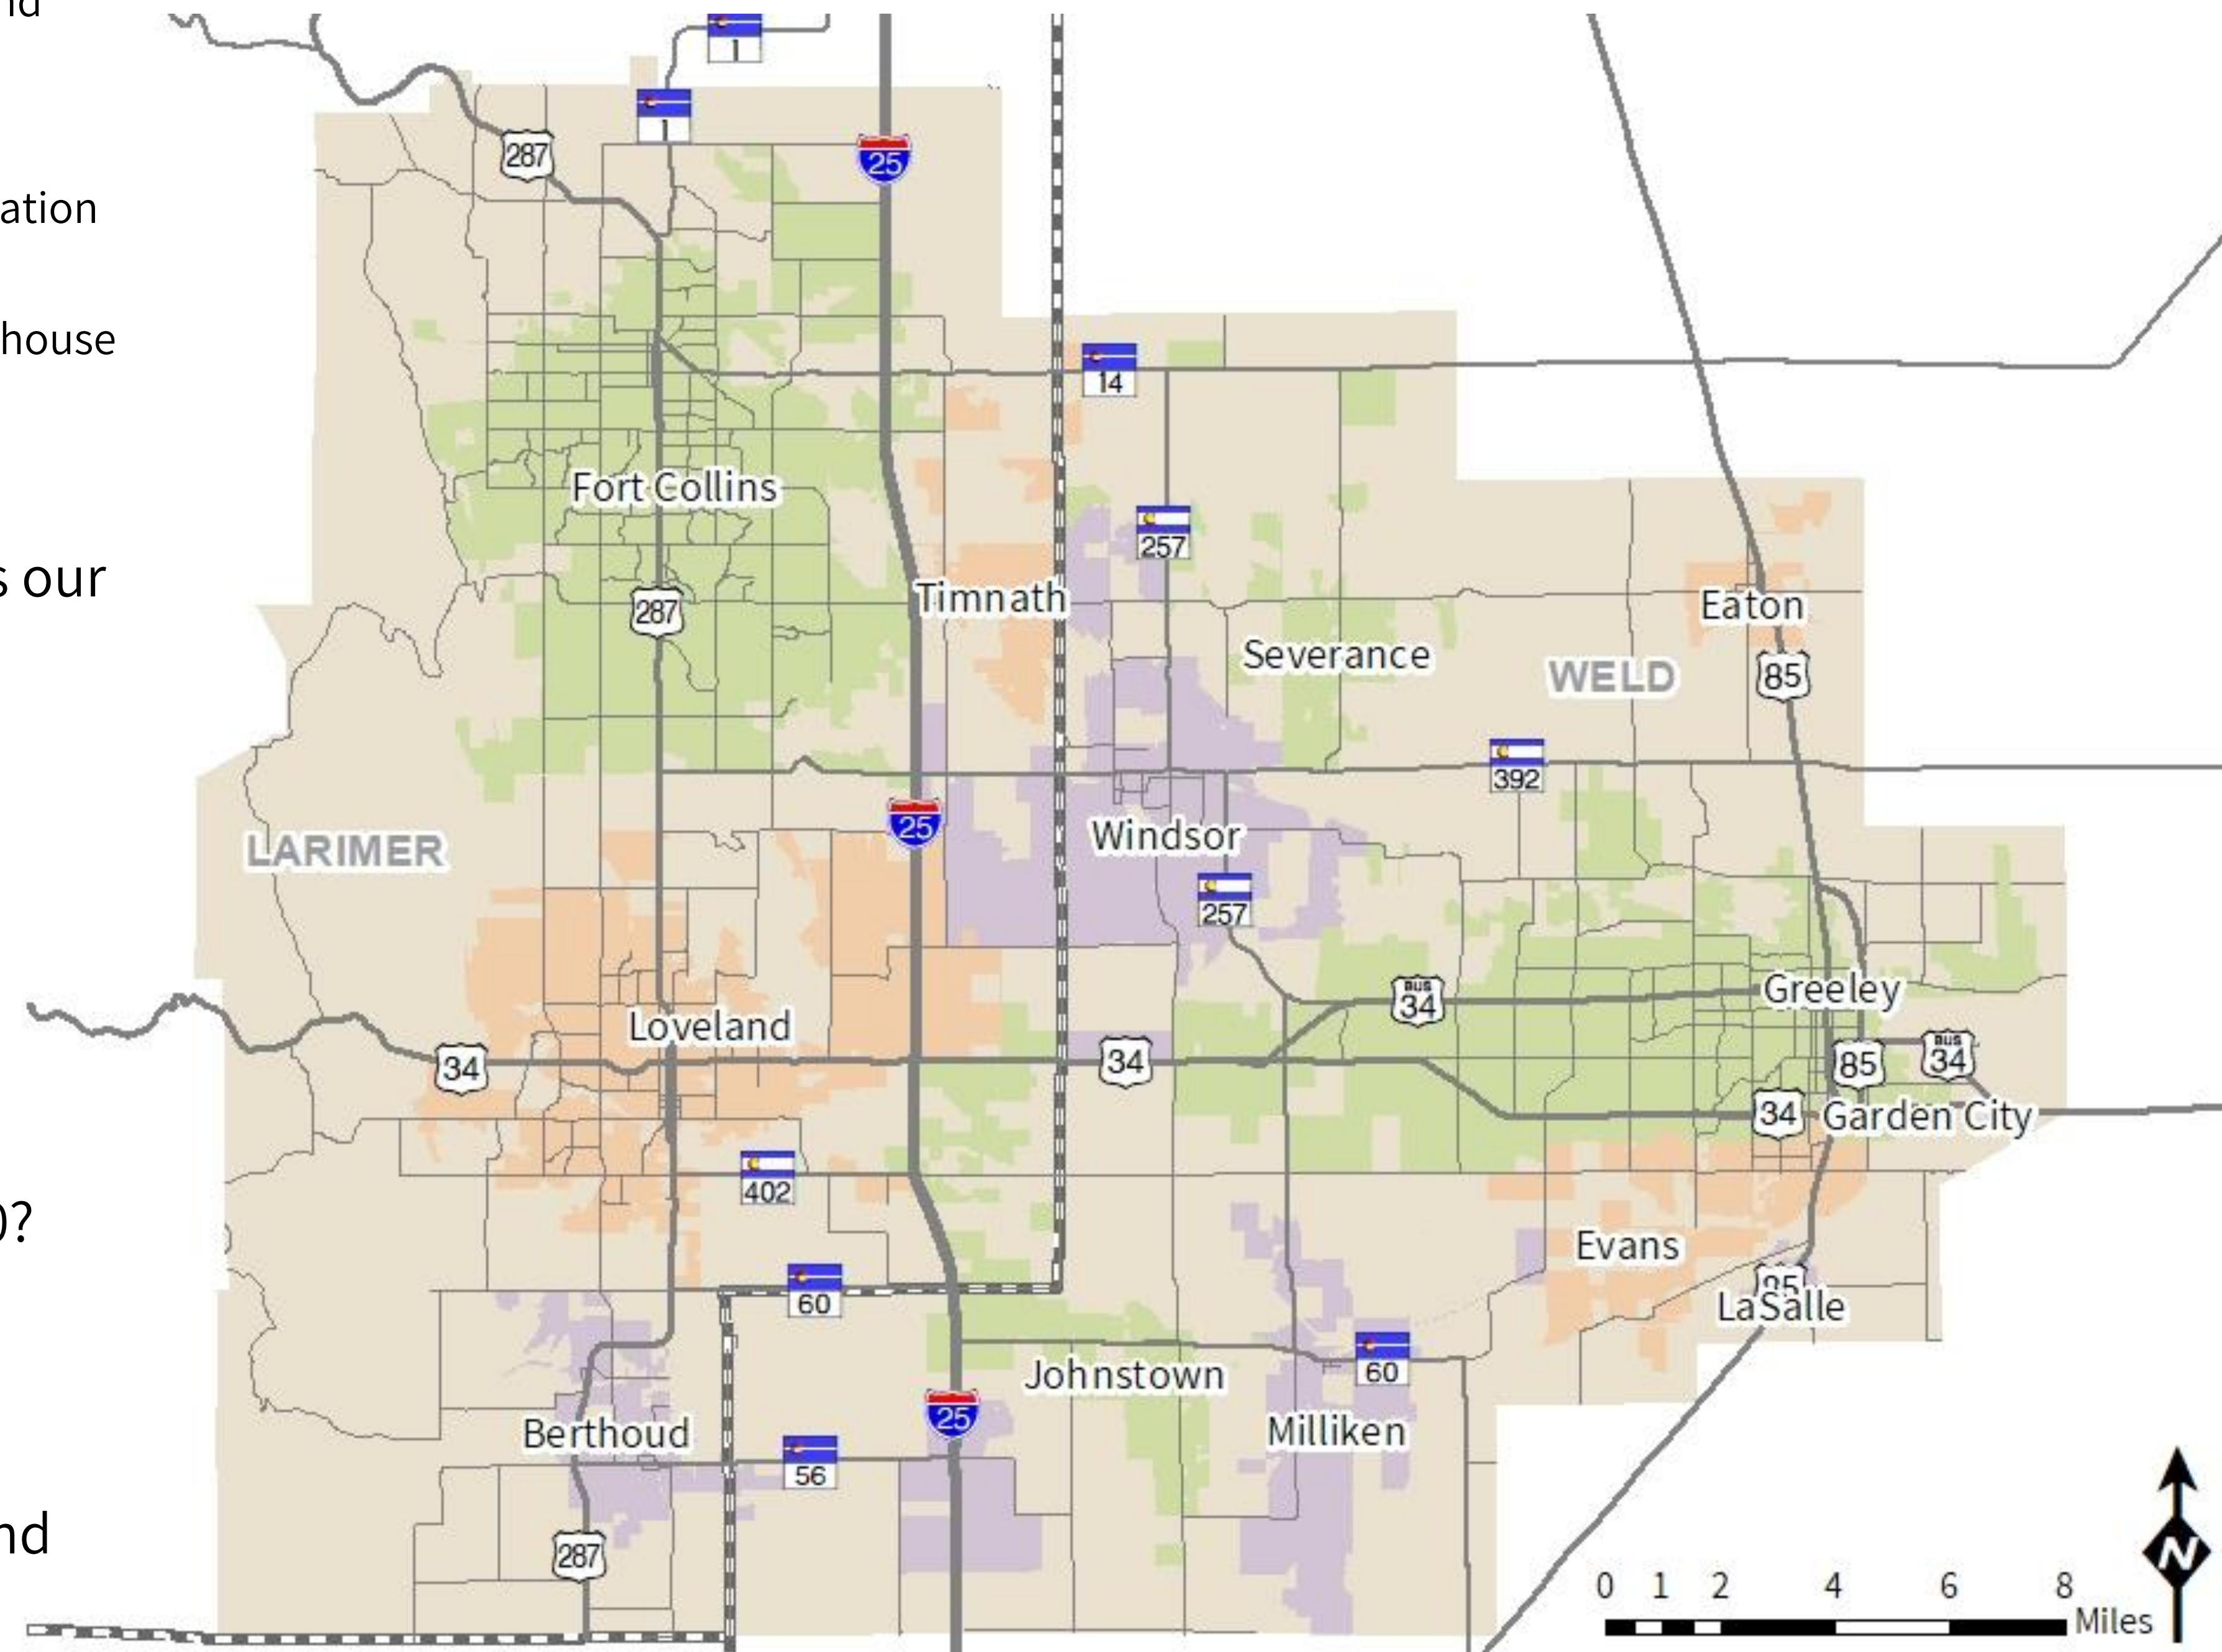

How much funding do we expect to have through 2050? What can we fund and prioritize?

Performance Management:

How are we as a region meeting regional, statewide, and federal performance measures?

Our region:
