No

I am interested in joining the Historic Preservation Commission because I have an interest in preserving the historic architecture of this city. My background in archives and records management could prove useful as I have an understanding of historic preservation and documentation including the National Register for Historic Places.

I am also interested in joining the Parks and Recreation Board. I use the park system in Fort Collins often and have a vested interest in ensuring that these community resources are maintained long term for all people in the Fort Collins.

Volunteer experience (please include dates):

Are you currently serving on a City board or Commission? If so, which one?

Why do you want to become a member of this particular board or commission?

Have you had any exposure to the board or commission you are applying for? If yes, please explain:

Specify any activities which might create a serious conflict of interest if you are appointed:

How did you learn of a vacancy on this board or commission?

---

Briefly explain what you believe are the three most important issues facing this board or commission, and how do you believe this board or commission should address each issue? Feel free to upload a separate sheet of paper if necessary.

Historic Preservation Commission

The Historic Preservation Commission has the important task of preserving the historic structures in Fort Collins and ensuring that they represent all constituencies within the community.

- 1.) Ensure proper identification and preservation of historic structures, neighborhoods and other historic areas in the City of Fort Collins.
- 2.) Ensure that the important history of these areas is communicated to the people that live in and around them. Why are these places significant and what part of our history do they share? How can learning about this history help us better understand our interactions with these spaces and our future?
- 3.) Ensure that all aspects of history are incorporated into the Historic Preservation for the City including a wide and diverse range of races, religions and ethnicities.

Parks and Recreation Board

The City of Fort Collins has a robust parks and recreation system. It is one of the highlights of living in Fort Collins. But, it is important to continue to evaluate these spaces as our community continues to grow.

- 1.) Evaluate the Parks and Recreation plan to ensure that all parks are being utilized to their full capacity. Is there one area in the city lacking where another area of the city has unused facilities?
- 2.) Ensure that proper staffing is available to assist and maintain facilities. Is the city parks and recreation department facing a staffing shortage like many other areas? How to recruit and retain staff members? In the meantime, what is the plan to handle the workload with less-than-ideal staffing levels?
- 3.) Evaluate recreational activities and services to determine community satisfaction. Are there general improvements that can take place?
