What individual perspectives and community interests would you bring to the HPC that might be missing or underrepresented on the existing Commission?

and preservation expansion projects that my family volunteered with. Subsequently, I have had a long standing interest and timely investment in participating and learning about historical sites.

Specify any activities which might create a serious conflict of interest if you are appointed:

I have a pretty keen and educated eye for mechanical, structural, and aesthetic appliques that are of local and regional significance; I am also able to identify and explain to owners of prospective preservation opportunities the benefits of a site worthy of being deemed historical in the official record.

How did you learn of a vacancy on this board or commission?

Nothing that I am aware of.
