DISCOVER YOUR NATURAL AREAS!

Natural areas are special places to explore and treasure. The City of Fort Collins Natural Areas Department manages more than 50 natural areas encompassing over 40,000 acres and 100 miles of trails—there’s probably a natural area near you! Check the maps on pages 68-70 or visit fcgov.com/naturalareas.

Fort Collins natural areas are open from 5 a.m. until 11 p.m. except Bobcat Ridge, Gateway, Fossil Creek, and Soapstone Prairie natural areas which are open dawn to dusk. Soapstone Prairie is closed December-February.

STAY INFORMED!

Subscribe to Natural Areas Enews, a monthly email newsletter that includes trail recommendations, updates, and volunteer opportunities at fcgov.com/naturalareas.

LANGUAGES AND ACCESSIBILITY

Natural Areas Department activities are delivered in English. If you require interpretation in another language, contact naturalareas@fcgov.com or 970-416-2815 to request an interpreter and we will provide one for you.

Auxiliary aids and services are available for persons with disabilities. V/TDD: Dial 711 for Relay Colorado.

If you have any questions or concerns about the accessibility of a program, please contact naturalareas@fcgov.com or call 970-416-2815 for more information. We are happy to make any appropriate accommodations.

WHAT THE SYMBOLS MEAN

Accessible; wheelchairs welcome. Paved or hard-packed trails; distance is 1 mile or less with moderate inclines.

Some activities are not suitable for all audiences and have age restrictions. Children must be accompanied by adults on all activities.

Some activities are specifically designed to be family-friendly and welcome all ages. Children must be accompanied by adults for all activities.

This activity is open to all, but specifically noted as a great activity for newcomers to the Fort Collins area.

These programs are led by Natural Areas partners and require a separate site for registration.

REGISTERING AND CANCELLATIONS

Registration is required but cannot take place more than 30 days in advance. Go to fcgov.com/register to register or call 970-416-2815.

Activities may be canceled due to inclement weather. Check before you go! Activity leaders may cancel an activity in progress for safety reasons.

FCGOV.COM/REGISTER for descriptions, registrations, cancellations, and program updates.

FCGOV.COM/NATURALAREAS for trail closures and general information.

Like City of Fort Collins Natural Areas on Facebook for news and information.

Follow @FCNaturalAreas for cancellations and updates.

Visit nocotrailreport.com or check the CoTrex app for trail closures.

ACTIVITY LEADERS

Volunteer Naturalists are highly trained volunteer educators who lead many of the activities in this guide. They love to share their enthusiasm, knowledge, and passion for natural areas. You’ll have lots of fun and gain a deeper understanding of your natural areas by attending a Volunteer Naturalist-led activity.

GROUPS

Groups of 15 or more visiting a natural area on their own must apply for a permit in advance at fcgov.com/naturalareas/permits. Permits are free and help ensure there are no conflicts on the day you plan to visit.

DOGS

Dogs are not allowed at any scheduled activities. Please enjoy the natural areas with your dog outside of activity times. As a reminder for those areas that do allow dogs, they must be on a leash at all times. Dogs are not allowed at Bobcat Ridge, Coyote Ridge, Cottonwood Hollow, Fossil Creek Reservoir, Running Deer, and Soapstone Prairie natural areas.

Service animals trained to assist with a disability are always welcome at natural areas and at natural areas programs.

SAFETY

The activities and events offered in this guide often take place in natural areas where you are responsible for your own safety. Outdoor activities include the potential for serious injury, death, or property loss. Choose activities that match your abilities. Be prepared for changing weather conditions. Beware of rattlesnakes, lightning, and high water. See page 65 for more information on ways to be safe in natural areas.

ART

Throughout this publication, you will notice artistic contributions by community members, such as poetry, stories, and visual art. These contributions reflect the viewpoints and opinions of those individuals and their personal connections with nature. We are proud to feature the work of our community in this year’s Natural Areas Explorer!
EQUITY IN NATURE
by Yaz Haldeman

The path is open,
Twisting into light and darkness.
The city fades into sky and earth.

Colors are vibrantly blind.
Tones are sharply silent.
The land is parched for truth.

We share the air,
We do not share the wealth.
Open hearts bloom in spring.

New seeds sprout,
Their light source blocked
By our fearful shadows.

We too can shed our skins of
Seasons past.

The path is open...

“This poem was inspired by the equity seen appreciated and accepted in nature and how we as intellectual beings can use that to guide us in our relationships with people who are different from us. The more we find in common, like sharing the path on an open trail in one of Fort Collins’ natural areas, the easier it will be to live in harmony like the creatures that share with us the natural world.”

- Yaz Haldeman
## JUNE NATURAL AREA ACTIVITIES

Sphere by Stephen Shachtman. Located in Redtail Grove Natural Area, on the Fossil Creek Trail west of College and southwest of the railroad tunnel. Learn more on the Art in Public Places website at [fcgov.com/artspublic/sphere](http://fcgov.com/artspublic/sphere).

**Sphere** is an 8 ft. diameter flagstone sculpture by Stephen Shachtman. The sculpture plays off the scale of the site and the nearby tunnel, appearing to be the same size as the tunnel opening and draws from the color palette of the natural area as well as the historical site. This area of the Fossil Creek Trail, in Redtail Grove Natural Area, was home to a brick factory from 1902 to 1952. Historical evidence found at the site includes remnants of bricks and buildings, bases of the tram that carried the brick clay, and a kiln. Visitors should search the sculpture to find a historic brick hidden in the 903 brick-like pieces of flagstone.

**OCTOBER**

**NATURAL AREA ACTIVITIES**

Taking visual inspiration from the site’s topography and history, Robert Tully created multiple site-specific artworks for Soapstone Prairie Natural Area. Tully developed the graceful curves of the roofs on the picnic shelters, entrance structure, and the Lindenmeier Overlook. The roof designs were given an Award of Merit by the Associated Builders and Contractors in late 2009. The artist carved oversized replicas of artifacts found at the Lindenmeier archaeological site in stone and set them in the walls of the Lindenmeier Overlook structure as educational aides. To welcome and orient visitors as they arrive at Soapstone Prairie, Tully stacked four stone cairns along the road in a gesture symbolic of historic human presence on the land. The artist also used stone and metal to create the natural area’s entrance sign.

*Registration is required* and opens 30 days prior to activity date at [fcgov.com/register](http://fcgov.com/register) or 970-416-2815. *Check for cancellations at [fcgov.com/naturalareas](http://fcgov.com/naturalareas)* before you go!
STEWARDSHIP

Registration is required and opens 30 days prior to activity date at fcgov.com/register or 970-416-2815. Check for cancellations at fcgov.com/naturalareas before you go!

YOUR RIDE

Natural Areas with Bike Racks:

• Bobcat Ridge
• Cattail Chorus
• Coyote Ridge
• Gustav Swanson
• Maxwell
• Nix Farm
• North Shields Ponds
• Pelican Marsh
  (at Water’s Way Park)
• Red Fox Meadows
• Reservoir Ridge
  (at Overland and Michaud lots)
• Ross
  (at Rolland Moore Park)
• Running Deer
  (at the Colorado Welcome Center)

Some areas with bike racks do not allow biking on the trails. Please check before you arrive.

For more ways to live sustainably, check out shiftfoco.com

AT HOME

Besides enjoying your natural areas and spending time outdoors, there are lots of ways you can take action to help our environment. Check out these ideas!

Shop Locally
This generates sales taxes that support natural areas conservation and visitor amenities.

Plant Native Plants
Make your yard an extension of the natural areas network by planting native plants. Visit fcgov.com/naturalareas/native-plants.

Minimize Pollutants
Minimize pesticides and herbicides to prevent run-off that pollutes waterways and protect beneficial pollinators.

Keep Cats Indoors
The great outdoors is no place for cats. Keep cats indoors. Learn more at fcgov.com/naturalareas/wildlife.

Adjust Your Lighting
Dark skies benefit people and wildlife. Light only where you need it. Resources available at fcgov.com/nightsky.

Support Air Quality & Climate
Carpool or use alternative transportation such as biking or walking.

Create a Nature Space
Create a nature space with a Nature in the City grant which funds projects for residents, neighborhoods, and communities. Grant submissions are open November through mid-January at fcgov.com/natureinthecity.

Reduce & Reuse
Reduce single-use plastics. These can be ingested by wildlife and they pollute waterways. Opt for reusable, recyclable, or compostable packaging whenever possible.

THANKS FOR SUPPORTING YOUR LOCAL NATURE SPACES.
COMMUNITY SCIENCE

Check out these opportunities to participate in self-guided community science projects in Fort Collins!

Check for cancellations at fcgov.com/naturalareas before you go!

Registration is required and opens 30 days prior to activity date at fcgov.com/register or 970-416-2815.

ON THE TRAIL

YOUR STEWARDSHIP CHECKLIST

Can’t make it to an event? There are plenty of ways to give back!

PLAN AHEAD AND PREPARE

✓ Use the checklist on page 65. Natural areas can be busy, so check parking lot webcams at fcgov.com/naturalareas/status before you go.
✓ Keep trails in good condition by checking trail status before you head out, visiting lesser known natural areas, and visiting at less crowded times. See nocotrailreport.com for closures.
✓ Visit in the mornings, evenings, or on weekdays. Check out hidden gems on page 66.

TRAVEL ON DURABLE SURFACES

✓ Don’t create new trails! If it’s muddy, respect trail closures and visit a paved trail instead. Using the same path minimizes ecological impacts.

DISPOSE OF WASTE PROPERLY

✓ Use the trash and recycling containers at trailheads.
✓ If trash can is full, pack out your own trash.
✓ Restrooms are at trailheads and some interior locations.
✓ Scoop your pet’s poop to prevent water pollution.
✓ Pick up litter by becoming a Natural Areas Adopter at fcgov.com/naturalareas.

LEAVE WHAT YOU FIND

✓ Allow the narrative of each place to be sustained. Don’t collect any items. Leave everything as you found it.

NO FIRES ARE ALLOWED ON NATURAL AREAS

✓ Attend a campfire activity in this guide! (See page 37.)

RESPECT WILDLIFE

✓ Allow wildlife to thrive in their home and habitat by giving them space and not feeding them.

BE CONSIDERATE OF OTHER VISITORS

✓ Be aware of other visitors and follow trail etiquette: Bikers yield to horses and pedestrians. Pedestrians yield to horses.

eBird

Your sightings contribute to hundreds of conservation decisions and peer-reviewed papers, thousands of student projects, and help inform bird research worldwide.

ebird.org

iNaturalist

Every observation can contribute to biodiversity science, from the rarest butterfly to the most common backyard weed. We share your findings with scientific data repositories like the Global Biodiversity Information Facility to help scientists find and use your data. All you have to do is observe.

inaturalist.org

Western Monarch Milkweed Mapper

Monarch populations across North America are in serious decline. To preserve and protect populations in western states, we need to better understand where monarchs and their milkweed host plants occur in the landscape. Your help is critical in collecting data to better inform conservation efforts in the western U.S.

monarchmilkweedmapper.org

A Smithsonian study found that more than 70% native plants in the area helps bird populations thrive. Try adding these **five native plants** to your space this year to support the birds and the bees!

- **Goldenrod** (*Solidago gigantea*)
- **Large beardtongue** (*Penstemon grandiflorus*)
- **Wild bergamot** (*Monarda fistulosa var. menthifolia*)
- **Butterfly milkweed** (*Asclepias tuberosa*)
- **Three-leaf sumac** (*Rhus trilobata*)

fcgov.com/natureinthecity
AT NATURAL AREAS

Natural areas are yours to enjoy and explore, and as stewards it is our responsibility to care for these special places. With more than 40,000 acres and more than 50 natural areas, there is a lot to care for!

PICK IT UP FOCO

Want to take your impact to the next level? Lead your own trash clean-up.

- Clean up our city before trash makes its way to the Cache la Poudre River.
- Help us better understand issues around trash and single-use plastics in our City.
- Collect data that will help drive policy changes.

The City of Fort Collins is partnering with Litterati to engage the community in picking up litter in Fort Collins—download the app to help!

Visit fcgov.com/volunteer/trashpickup for more information and step-by-step instructions for a safe and fun volunteer experience.

Visit litterati.org for more information.
A watershed is a geographic area in which water, sediment, and dissolved minerals all drain into a common body of water like a stream, creek, reservoir, or bay.

A watershed includes all the plants, animals, and people, who live in it, as well as the non-living components like rocks and soil.

We are all part of a watershed, and everything we do can affect the surface and ground water that runs through this system. agintheclassroom.org
BUDDING YOUNG NATURALISTS

Bring your little ones to learn about nature through stories, activities, nature walks, and hands-on projects. **Parents/guardians must be present at all times.**

NEWCOMERS’ SERIES

Are you new to Fort Collins or Larimer County? Welcome!

This special series of programs helps new residents learn about the ecosystems that make the area so special. **All programs are free. Registration required.**

Selected activities are marked with the New symbol: 🌟

- **Parade of Prairie Bloom**, June 3 ................. page 57
- **Sights and Sounds of Gateway Natural Area**, June 4 .......... page 57
- **Know Your City: Nature in the City**, June 23 ...................... page 45
- **Forest Therapy**, June 23, Sept 11 or Oct. 6 ...................... page 54
- **Fireflies in Colorado**, June 24 or July 1 ...................... page 34
- **Sights and Sounds of McMurry**, July 23 ...................... page 57
- **The Water We Use**, July 28 ...................... page 45
- **Sights and Sounds of Bobcat Ridge**, Aug. 20 ...................... page 58
- **Bison-Archaeology Connection**, Aug. 28 ...................... page 49
- **From Basement to Desert**, Sept. 9 ...................... page 59
- **From Shores to Ocean Depths**, Oct. 7 ...................... page 59

“...pleasing the eye and the soul. A constant reminder of the beauty of nature and the importance of conservation...”

—Jan Latona

Registration is required and opens 30 days prior to activity date at [fcgov.com/register](http://fcgov.com/register) or 970-416-2815. Check for cancellations at [fcgov.com/naturalareas](http://fcgov.com/naturalareas) before you go!
NATURAL AREAS AFTER DARK

Explore and enjoy the natural areas after the sun goes down.

NIGHT WALKS 🌙

Walks are offered near the full moon with lots of natural light—no need for flashlights! Dress warmly, wear closed-toed walking shoes, and bring water to drink. The activity will include a 1-2 mile walk on unpaved trails; easy.

GO FOR YOUR OWN NIGHT HIKE!

Have you ever explored nature at night? Take a night walk in a natural space and listen for owls, frogs, and other wildlife. Learn what blooms open at night. Here are some tips to keep you safe and learning:

- **Head out just before sunset:** Heading out before sunset can make it easier to get motivated, plus there’s still a little light on the way out, which will make the way back easier.
- **Hike on a full moon:** On full moon nights, there is more natural light. You can use your headlamp or flashlight less!
- **Go with a group:** Hiking is more fun with friends. Plus, it’s safer and not as intimidating.
- **Take a familiar trail:** A familiar trail will be easier for nighttime travel.
- **Pick the right location:** Some natural areas are closed after dark. Coyote Ridge, Reservoir Ridge, and Riverbend Ponds are all great places to try a night hike and they’re open until 11:00 p.m. Check out fcgov.com/naturalareas for more natural areas that are open late.
- **Slow down and be observant:** Darkness can make terrain more challenging and it’s easy to get turned around and miss a trail junction. Slow down and pay attention to your surroundings, including signs of wildlife.
- **Bring layers, like an extra coat or jacket:** If you start before the sun sets, you may want an extra layer of warm clothing once the night sets in and it cools off.
- **Bring a cellphone or radio for emergencies:** Be aware of the area you are hiking and know if you can get service there.
- **Tell someone where you are going:** Always let someone know where you are going and when you expect to be back.

Night hiking tips modified from: rei.com/blog/hike/night-hiking-basics
CAMPFIRES

Spend a cozy evening by the campfire, complete with stories and s’mores! Suitable for all ages. Dress warmly and bring water to drink.

Campfires at Coyote Ridge include a hike on an unpaved trail to the cabin. Please allow 30-40 minutes to reach the cabin. The campfire begins at the time listed below. Bring a flashlight for the walk back. 2 miles; easy.

Campfires at Nix Farm do not include a hike and are wheelchair accessible. Bring lawn chairs or blankets to sit on if you like (limited seating available).

ASTRONOMY AT
BOBCAT RIDGE

Enjoy a brief, family-friendly astronomy activity followed by skygazing. Volunteers from the Northern Colorado Astronomical Society provide telescopes. Dress warmly, bring water, and a blanket or chair to sit on in the parking lot. If bringing a flashlight, use a red light or cover it with red cellophane. Activities at Bobcat Ridge Natural Area will begin at the picnic shelter, a 0.25 mile walk. Please arrive on time! Allow for a 10-minute walk to the shelter. The gate closes shortly after start times and parking is not allowed on the road outside the gate.

**Ghost Kitchen** consists of two low concrete walls that define a picnic space and reference the farmstead that was once located in the area. The artwork includes welded steel “windows,” referencing the earlier homestead with silhouette cutouts depicting common birds, animals, and insects that visit the site. The wall that marks the entry to the space is designed for seating and incorporates a low-relief bronze map of the Reservoir Ridge Trail experience in the form of a game board. To play the game, small stones are moved along a path that includes the detours and side adventures one might find along the actual trail.

Registration is required and opens 30 days prior to activity date at [fcgov.com/register](http://fcgov.com/register) or 970-416-2815.

ARTISTIC ABILITIES

Artistic Abilities is an inclusive art class through Adaptive Recreation Opportunities (ARO). Class members took a brief fieldtrip outside the Senior Center to collect natural materials, which they then manipulated, arranged, and glued into self-portraits. Nature can always provide artistic inspiration, complementing the multiple benefits of moving outdoors and expressing creativity. The ARO program provides quality and equal opportunities for recreation and leisure programs to community members with disabilities. fegov.com/aro
The flowers are different today. I almost can't discern the change, not in dawn's veiled light. Ten minutes from now, as the sun wanders higher, the details will no longer be obscured. I cherish these moments. Not many see the meadow in this light.

It is the summer of 2019. My feet again acquaint themselves with the dirt trails of Pineridge and Maxwell natural areas. This space has become a sort of sanctuary in which I am determined to reclaim my health physically, mentally, and spiritually after suffering a miscarriage. For the three years following my loss, I find myself unable to trust my body or continue my love of trail running.

In May, aching to return to the trails, I registered for a half-marathon trail race in Lory State Park at the end of summer as my motivation. Three times a week I find myself here, lost in every thought and no thoughts at all. Spanning these months, I come to recognize other runners who cross me on the path. I grow familiar also with the critters who call this area home, the ones protected by our natural areas. I watch as early summer flowers give way to late summer blooms. It is as if each week, our natural areas greet me with new splendor. I witness the resilient cadence of our landscape. Observing each facet and character of our ecosystem supporting one another, my respect for the space blossoms right along with its wildflowers. I begin to recognize the milkweed, thistle, rabbitbrush, and bluebells, appreciating each for the beauty it lends to my miles. On the warmest mornings, honeysuckle wafts from the bushes, warmed from the sun like honey melting on a biscuit. Swallows, swifts, and chickadees sing me through mile after mile. One afternoon even brings a bobcat across my path. Peering at me from the tall native grasses, I wait patiently for him to make his way up the ridge, thankful for the break he affords me to catch my breath.

As race day approaches, longer training runs demand earlier start times at the trailhead. There is a lesser-known entry to Pineridge, a narrow grass-hemmed trail off the south end of Overland Trail. Its initial ascent serves as a perfect warm-up, stealing my breath well before the first mile marker. Closing in on mile two, I resurface from the trees, coming out below the official trailhead parking lot. Fishermen are already well situated on the bank. They arrived at Pineridge far earlier than I. I hope one day my appetite for the trail will match their appetites for a bite on the line. Maybe one day I'll beat them to the water's edge.

As the weeks progress and my body and mind strengthen, I add to my route. Maxwell takes me up and over on to Reservoir Ridge. Mule deer raise their heads from the grass, offer a good-morning nod. Knowing the meadow will soon be busy with hikers, they wander back into the ponderosa pine until tomorrow's dawn. The magpies, however, don't seem to mind my presence. They fly right along with me.

In September, I cross the finish line of my race. I reflect on the past three years of grief, and more recently, my four months and 83.44 miles devoted to Pineridge and Maxwell and all their inhabitants. More fondly, I consider all they committed to me in cheering me on each mile to win back my health and return to these majestic places we all get to call home.
**WELLNESS**

Time spent in nature has been linked to reduced stress, improved well-being, and increased social connectedness. Join trained Volunteer Naturalists to explore how time spent in green spaces can positively affect both your mental and physical health.

</table>
| Thur. June 3 | 8:30 a.m. – 10:30 a.m. | Pineridge Natural Area Meet at Cottonwood Glen Park in the parking lot. | **Parade of Prairie Bloom**  
Explore the blooms through the months, while learning about native and non-native plants. 1.4 miles; easy-moderate. |
| Fri. June 4  | 10:00 a.m. – noon | Gateway Meet at Shelter A. | **Sights and Sounds of Gateway**  
Explore where the river and foothills meet. See the birds, butterflies, and plants that live here. Bring your lunch to enjoy during a short presentation after the hike. 1.5 miles; easy. |
| Wed. June 16 | 9:30 a.m. – 11:00 a.m. | Lee Martinez Park Meet in the parking lot by the tennis courts. | **A Walk Through Nature**  
Enjoy a leisurely walk along the Poudre Trail. Explore the dance between the river and the land forms while observing birds, trees, and butterflies along the trail. Up to 1 mile, with fun for families; easy. |
| Sat. July 10 | 10:00 a.m. – 11:30 a.m. | Fort Collins Museum of Discovery Meet at Museum entrance. | **Ecology Walk**  
Time spent in nature is never wasted. Learn a bit about local ecology and enjoy a peaceful walk along the Poudre River. Up to 1 mile; easy. |
| Sat. July 17 | 10:00 a.m. – 11:30 a.m. | McMurry Meet at Shields St. River Access. | **Sights and Sounds of McMurry**  
Discover another successful story of a Poudre River natural area right in town. Look for important plant and insect resources and watch for active animals. 1.5 miles; easy. |

*Registration is required and opens 30 days prior to activity date at fcgov.com/register or 970-416-2815.*
### Natural Discoveries - continued

<table>
<thead>
<tr>
<th>DATE</th>
<th>TIME</th>
<th>NATURAL AREA</th>
<th>DESCRIPTION</th>
</tr>
</thead>
</table>
| Wed. Aug. 4    | 9:00 a.m. – 11:00 a.m. | Bobcat Ridge          | **Burning and Renewal at Bobcat Ridge**  
Awaken your curiosity about wildfire and its impacts through up-close, personal observations of the recently burned landscape, stories from those who were on the scene during the fire, and an understanding of how the ecosystem reveals its resilience to this natural phenomenon. |
| Thur. Aug. 5   | 9:00 a.m. – 11:30 a.m. | Pineridge             | **For the Love of Ravens**  
Learn more about the magic of ravens as depicted in stories and literature. 3 miles; moderate. |
| Fri. Aug. 20   | 10:00 am – noon | Bobcat Ridge          | **Sights and Sounds of Bobcat Ridge**  
Explore the convergence of shortgrass prairie and foothills plant communities, how they support a web of animal life, and their resilience after wildfire. Hike on the Eden Valley Spur trail, examining plant resources, watching for active animals, and noticing the local geology and wildfire impacts. Up to 1.5 miles; easy. |
| Thur. Sept. 16 | 9:00 a.m. – noon | Bobcat Ridge          | **What About Ravens?**  
Ravens are unique and intelligent birds. Learn more about what makes them so special and the role they play in the montane ecosystem. 3 miles; moderate. |
| Wed. Sept. 22  | 5:30 p.m. – 10:30 p.m. | Soapstone Prairie | **Black-Footed Ferret Exploration**  
Explore North America’s rarest mammal. Journey together to Soapstone Prairie for a presentation about black-footed ferrets. Then hike and search for this elusive resident, 1-2 miles; moderate with uneven terrain. |
| Fri. Oct. 22   | 5:00 p.m. – 10:00 p.m. |                      |                                                                             |

---

**GEOLOGY AND ECOLOGY EXPLORATIONS**

Explore with experts in geology and ecology to uncover the secrets of the oldest to youngest rocks in Fort Collins. Discover how the landscape was shaped by natural forces to form the ecological landscape. Bring sun protection, lunch, water, sturdy shoes, and rain gear.

</table>
| Tues. June 15  | 9:00 a.m. – 3:00 p.m. | Coyote Ridge          | **Cover to Cover: Reading the Rocks of the Front Range Foothills**  
Take a walk through time and get full look at northern foothills geology through the juxtaposition of Coyote Ridge Natural Area and Devil’s Backbone Open Space. 10 miles; very strenuous. |
| Sat. June 26   | 9:00 a.m. – 11:30 a.m. | Gateway               | **Real Colorado Roots**  
Discover Colorado’s origins as pieced together by geologists using the theory of plate tectonics and evidence along the Black Powder Trail. 1.5 miles; moderate. |
| Thur. Sept. 9  | 9:00 a.m. – 2:00 p.m. | Bobcat Ridge          | **From Basement to Desert**  
Discover the oldest rocks in Larimer County, the Great Unconformity, and the red rocks shed from the ancestral Rockies. 4 miles; moderate. |
| Thur. Oct. 7   | 9:00 a.m. – 2:00 p.m. | Coyote Ridge          | **From Shore to Ocean Depths**  
Examine the watery sediments that form Coyote Ridge. Learn how these rocks were deposited, uplifted, eroded, and vegetated to form the present landscape. 4 miles; moderate. |

RISE
by Bronson R.

Ash.
Not just on a Wednesday,
on nearly every gentle summer morning.
The sky mimicking the ground
mirrors to the radiant brush
clouds of burnt sienna.
Out on the reservoir
refracting infused aerosols
inhaling smoke through echoes.
The loud crackling
effortless ridge lining
suppressing generational risk
Land lost
and at the same time, experiences.
Having to find a way of breathing calmly.
The swabbing,
Salivary glands giddy.
Not being able to share the same air.
Again, smoky
unknowing of falling heaven
or of signs of raising hell.
An imminent rot,
rethinking of normal routines
with pestilence and hellfire rummaging succinctly.
Scars from the losses
fatigue of boredom
cooped up next to the windows.
Watching as the city burns
as the world burns
as does our disinfected hands.
But once the ash falls it can only move one way.
When the drought settles,
when the distinguishable white flurries—
—we will be Phoenixes.
Molting into fortress
to regain a livable premise,
where the sun does not burn to a crisp.
To seek out kind souls of Horsetooth,
and restore the calcium in our complexion.
Numbered are the days of demise
for after the Cameron scorch,
comes seral growing, comes rebirth.
PLAY IT SAFE ON THE RIVER

WEAR A LIFE VEST
✓ No pool toys—they won’t hold you up.
✓ Wear shoes and a helmet.
✓ Don’t tie anything to yourself or your vessel. It could drown you.

SAFE TO GO?
✓ Know the weather and water conditions. High flows are unsafe.
✓ This water is melted snow—it’s always cold.
✓ Avoid logs, branches, rocks, and debris. They can drag you under.
✓ Your risk-taking endangers the lives of rescuers.

KNOW WHERE YOU ARE
✓ Take a map!
✓ Plan your take-out location before you get in.
✓ Pay attention and follow all warning signs.

FLOAT SOBER, FLOAT SAFE
✓ Alcohol and drugs, including marijuana, impair judgment.

BE COURTEOUS
✓ Don’t leave trash in or near the river. Look for trash and recycling cans in parking lots.

SHARE THE RIVER
✓ Give other boaters and anglers plenty of space.

IN CASE OF EMERGENCY, CALL 911.

POUDBRE RIVER FEST
Learn more and sign up for activities at poudreriverfest.org.

</table>
| Fri. June 25 | 10:00 a.m. – 7:00 pm. | Virtual and In-Person | Recreation
The Poudre River has something for everyone when it comes to recreation: fishing, kayaking, tubing, or just relaxing on the river banks. Join us for a day of virtual interactive learning or join some of our safe in-person activities for a chance to get out and explore the Poudre River with your friends and family. Featuring: The Colorful History of the Poudre River at 10 a.m. with a Volunteer Naturalist. |
| Thur. July 15 | 10:00 a.m. – 7:00 pm. | Virtual           | Everyday Water
Water is critical resource in the arid West, and we rely on it for everything from drinking out of our taps to tapping those beer kegs! Join us for a deeper dive into the role that water plays in shaping our community and contributing to our prosperity, the challenges presented by drought and a changing climate, and how everyone can help make a difference to keep it flowing for all. |
| Sat. Aug. 21  | 1:00 p.m. – 6:00 p.m. | New Belgium Brewery | Celebration
Join us at New Belgium Brewery for a day of education, restoration, and celebration of the Poudre River! There will be live music, exhibitor booths, interactive games, food trucks, tasty beer, and door prizes! You can also learn about river restoration projects being led by the local non-profits and sign up to volunteer. |

Registration is required and opens 30 days prior to activity date at fcgov.com/register or call 970-416-2815. Check for cancellations at fcgov.com/naturalareas before you go!
POP-UP EVENTS AND TRAILHEAD TABLES

Natural Areas Volunteers are popping up around town and on the trails with activities, giveaways, and brochures. Keep an eye on fcgov.com/register and Natural Areas’ Facebook and Twitter channels for information about pop-up events and Trailhead Tabling. They’ll be announced the week before the weekend event.

Learn about:

- Nature Play
- River Safety and River Critters
- Poudre River History
- Archaeology
- Wildfires
- And More!

WHAT TO BRING

Having the right things with you will help make your natural area visit a success. Use this checklist as a guideline to help you pack for a day outdoors.

- **Map and a Compass, OR a GPS System:** (not all natural areas have good reception, see the box below for more info). A natural areas map is at fcgov.com/naturalareas and at trailhead kiosks.
- **Layers and Rain Gear:** Be prepared for sudden changes in weather.
- **Repair Kit:** This may include duct tape, multi-tool, etc.
- **Water:** Pack more than you think you’ll need and drink before you feel thirsty.
- **Trail Food**
- **First Aid Kit**
- **Flashlight**
- **Sun and Mosquito Protection**
- **Emergency Shelter:** A lightweight space blanket is appropriate.

Visitor safety is important to the Natural Areas Department. Bobcat Ridge, Soapstone Prairie, and Gateway natural areas have little to no cell phone coverage. Call boxes are available in case of an emergency. See locations and details below:

- **Bobcat Ridge Natural Area** usually has cell phone coverage in the higher elevations. (Call box in parking lot.)
- **Soapstone Prairie Natural Area** has more cell phone coverage towards the north parking lot. (Call box at gatehouse near entrance.)
- **Gateway Natural Area** never has coverage. (Call box before gatehouse upon entry.)

Check for cancellations at fcgov.com/naturalareas before you go!

MORE ACTIVITIES

Check out these other City of Fort Collins activities:

- **Gardens on Spring Creek** — Visit the world-class botanic garden and enjoy the new butterfly house. Go to fcgov.com/gardens or 970-416-2486.
- **Fort Collins Utilities** — Learn about electricity, water, stormwater, and wastewater through a variety of offerings. Visit fcgov.com/utilities or 970-224-6141.
- **Fort Collins Museum of Discovery** — Expand your mind. Engage your world. Hands-on explorations in science and culture await! fcmod.org/programs.

Registration is required and opens 30 days prior to activity date at fcgov.com/register or 970-416-2815.

NATURAL AREAS VISITORS CENTER

Fort Collins Museum of Discovery, 408 Mason Court, Fort Collins
Wed. – Sun., 10:00 a.m. – 5:00 p.m.

Check out the Natural Areas Visitor Center in the lobby of the museum. Play with the interactive map and watch live endangered black-footed ferrets. Pick up a map or other natural areas information while you’re there. **No admission fee!**

PRIMROSE STUDIO

Primrose Studio is a quiet facility in a beautiful setting in northwest Fort Collins. It is perfect for small classes and retreats.
**Hours:** Tues. – Sat. 8:00 a.m. – 10:00 p.m. Closed holidays.

Cost: Private groups: $250 for up to 5 hours and $50 per additional hour. Non-profit and government rates: $150 for up to 5 hours and $30 per additional hour. Three-hour minimum required. Learn more at fcgov.com/naturalareas/primrose or call 970-416-2815.
Soapstone Prairie
Travel north on Highway 1 (Terry Lake Road). Turn left (toward Waverly) on County Road 15. Travel north and turn right onto Rawhide Flats Road. Go 6 miles to the entrance station. Please obey posted speed limits. Soapstone Prairie is about 25 miles from Fort Collins and takes approximately one-hour drive time.

Gateway
Travel north on Highway 287. Turn left onto Highway 14 (Poudre Canyon Highway). Go 5 miles and turn right into the entrance.

Bobcat Ridge
From Fort Collins, take Harmony Road (County Road 38E) to Masonville. Turn left (south) onto County Road 27 (at the Masonville Mercantile). Go 1 mile to County Road 32C. Turn right and proceed 1 mile to the parking lot.

From Loveland, go west on Highway 34, turnoff to County Road 27 is located about 4.5 miles west of Wilson Avenue. Turn north on County Road 27 (at Big Thompson Elementary School) and drive 4.5 miles. Turn left on County Road 32C and go 1 mile west to the Bobcat Ridge parking lot.
