

Macrofungi Species List

Submitted by Ed Lubow of the Colorado Mycological Society

Agrocybe sp.	1
Amanita cf. populiphila	1
Amanita muscaria v. flavivolvata	1
Amanita sp. subg. Lepidella	1
Boletus edulis (not collected by us)	1
Clitocybe sp.	1
Coprinellus cf. micaceus	1
Coprinellus sp.	4
Cortinarius sp.	3
Cyathus sp.	2
Hebeloma sp.	2
Heliocybe sp.	1
Helvella sp.	1
Inocybe sp.	6
Lactarius cf. sanguifluus	1
Lycogalla epidendrum	1
Maramius oreades	1
Phallus hadriani	1
Pleurotus sp.	1
Polyporus sp.	2
Psilocybe coprophila	1
Russula sp.	6
Suillus cf. granulatus	1
Tulostoma sp.	1
unclassified	4

Total 46- That total probably has a few duplicates, but it's a fair approximation of what was found. Ed Lubow was pretty certain that the Amanita sp subg Lepidella is a new species for Colorado.
