

## Not everything is yellow!

### **Locoweed** *Oxytropis sericea*

(Pea family) native

Beautiful showy flowers easy to spot on the prairie. However these can be harmful to livestock, especially horses

Photoglass

There are a number of milkvetches at Soapstone, mostly blooming early. Some milkvetches are also called locoweed. There are hundreds of species of the genus *Astragalus* in North America.

### **Missouri milkvetch**

*Astragalus missouriensis*  
(Pea family) native
