

# Neighborhood Light Pole Artworks

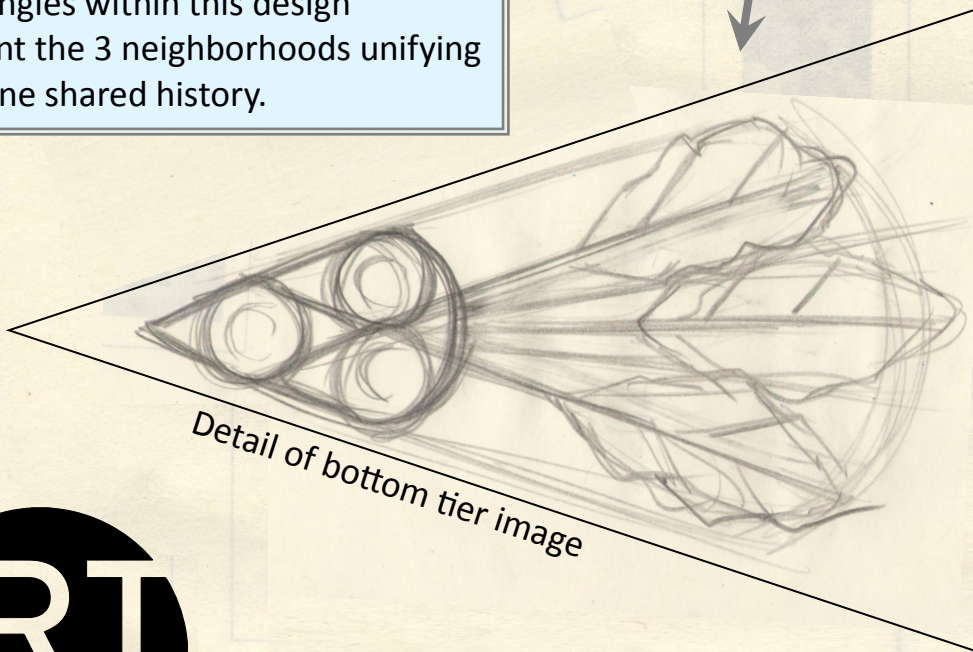

## By Mario Miguel Echevarria

—Representing the 3 neighborhoods together in one design—

The top tier image is a combination of German Russian scroll work and Mexican papel picado

The middle tier image uses early 1900s American typeface  
—includes the neighborhood name, in different languages—

Bottom tier image is inspired by the shape of a sugar beet and the 3 smaller sugar beet-shaped groupings of circles and triangles within this design represent the 3 neighborhoods unifying under one shared history.

Detail of bottom tier image
