An aerial photograph of a park area. A large, irregularly shaped area in the center is outlined in a thick green line. The text "CORE AREA" is written in large, bold, green capital letters across the center of this outlined area. The park features a large pond in the lower half, a baseball field and tennis courts in the upper left, and various buildings and parking lots. Residential streets and houses are visible around the perimeter of the park.

TROLLEY GARDEN

“Many spectators would walk or ride the streetcar as far up West Mountain Avenue as it went. The newspaper exhorted the city to extend the line and this became the impetus for a streetcar loop into City Park.” City Park history excerpt

Small white electric lights were placed on the piers, along the shore near the bath house, and around the bandstand out in Sheldon Lake. This gave a resort-like atmosphere which was very festive and lively at night.” City Park history excerpt

PARK CENTER GREEN

An aerial photograph of a park center. In the center is a large, vibrant green lawn where several people are walking and playing. To the right, a modern building with large windows and a balcony is visible. The foreground and sides of the lawn are bordered by a paved area with a complex, geometric, mosaic-like pattern of light and dark grey tiles. A tall, thin lamppost stands on the left side of the lawn. The overall scene is bright and sunny, with shadows cast across the grass.

“The park center should have a large, clean, open greensward for play, surrounded by trees which interplay light and shade. These central meadows should be surrounded by a ‘depth of wood’ so as to shut out the city and provide coolness in the heat of the summer.” City Park history excerpt

“For decades the park has been a magnet for families. It has always been a place to take a pleasant walk, feed the ducks, ride the paddle boats and teach children how to fish” City Park history excerpt
