

WHAT IS THE WEST CENTRAL AREA PLAN?

The City is currently updating the West Central Area Plan, an area that generally encompasses the neighborhoods south and west of the CSU Main Campus. This plan's predecessor, the West Central Neighborhoods Plan, was adopted in 1999.

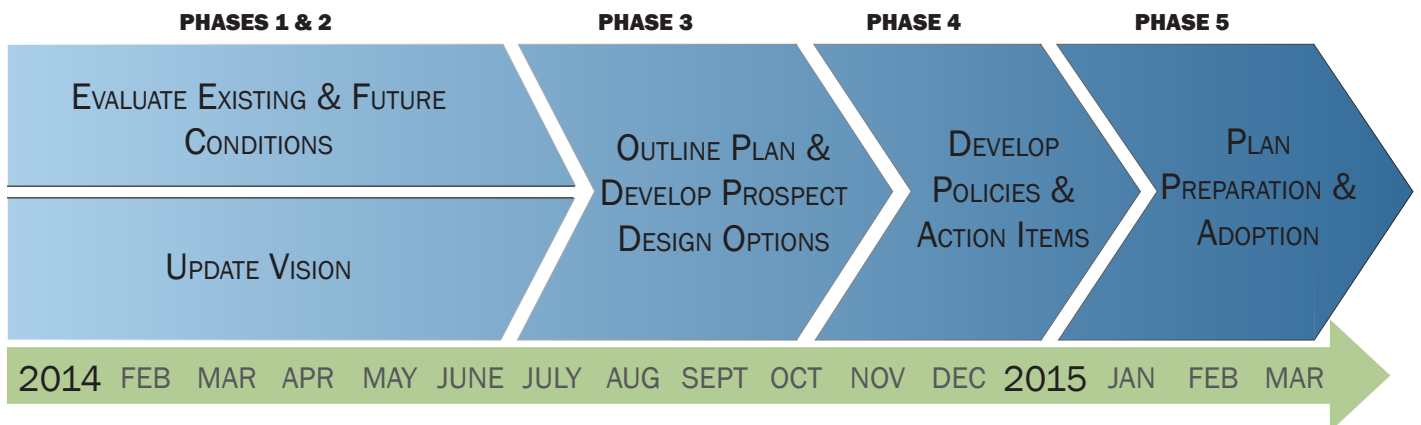

Now 15 years later, this area hosts several new development projects, with varying degrees of impact, and it is time to reassess plans and policies so the quality of life and character of the West Central Area are preserved and enhanced. The updated West Central Area Plan will reflect the community's vision for the area and address new opportunities and issues that have emerged.

Transportation needs, such as connections to the new Mason Corridor bus rapid transit system (MAX) and bicycle and pedestrian enhancements, will also be addressed, including a new conceptual design for Prospect Road from Shields Street to College Avenue.

PLANNING PROCESS

The WCAP will be updated over the course of the next year, with ongoing opportunities to get involved and share your ideas.
