November 2, 2020

Dear Trash and/or Recycling and/or Compost Hauler,

It is time to apply for 2021 Solid Waste Collector Licenses! If your business plans to haul from any Fort Collins property in 2021 your business is required to obtain a Solid Waste Collector License. This year we are utilizing a new online system for the Solid Waste Hauler License Application:

[fcgov.com/HaulerLicense](http://fcgov.com/HaulerLicense)

If you have questions about this form, please contact me at 970-416-2701. After completing the form and uploading proof of insurance, you will be prompted to pay your license fee online through the City of Fort Collins Sales Tax payment system.

Once the license payment is processed and the application is completed and approved, you will be notified and your license and truck stickers will be sent to the address we have on file. Please complete and submit the form and licensing payment by **November 30, 2020**.

As a reminder, the Community Recycling Ordinance was adopted by Fort Collins City Council in September 2016, which includes a requirement for the provision of recycling service by multi-family and commercial customers by the end of 2020. Due to the ongoing impacts of COVID-19, the implementation of this ordinance has been delayed, and provision of recycling is required by the end of June 2021.

If you have any questions, please don't hesitate to be in touch.

Thank you,

A handwritten signature in blue ink, appearing to read "Linda Hardin".
