SUGGESTED ACTIVITIES

For Your Information

- ★ The following activity works well as a school-wide project. A group of teachers working cooperatively will find it more manageable than a single teacher will.
- ★ There are other bike-safety programs similar to this one. For example, you can contact your Fort Collins bicycle coordinator to set up a bike rodeo. Contact David “DK” Kemp at dk@fcgov.com

Dear Parent(s)/Guardian(s):

On _____, our class will participate in a Sidewalk Safety Day. Your son or daughter will be involved both as a pedestrian and as a sidewalk vehicle driver (tricycle, bike, scooter, etc.). Not all students own sidewalk vehicles, so some sharing will occur. If your child has a sidewalk vehicle and a bicycle helmet and you can bring them to class the day of the event, it would help ensure the day's success. Please indicate below if your child has permission to share any items brought to school.

It is of critical importance that every child learn how to conduct him/herself smartly (safely) on city streets. Please help us to provide instruction and practice in an activity that could mean life or death. Call me at _____ if you have questions or would like to help at this event.

Please have your child return the bottom of this letter, signed by you. Thanks.

Sincerely,
