

## Other Tips, Tricks & **WAYS TO SAVE**

Optimize your energy and water use and save money on your bill with our programs and rebates.

### **TRACK YOUR USE**

View detailed electricity and water use with MyEnergy and MyWater.

### **SIGN UP FOR AN ASSESSMENT**

Reduce utility costs and increase the comfort of your home with a \$60 assessment.

### **RECEIVE A REBATE**

Rebates are available for energy and water efficiency products.

### **FIX DRIPS AND LEAKS**

It's the fastest way to conserve.

### **PAY LESS FOR WASTEWATER**

Your winter quarter average (WQA) is based on water use billed January - March. Use less water December - March (depending on billing cycle) to save on wastewater costs year-round.

### Make Your Utilities

## **MORE AFFORDABLE**

Learn more about our affordability programs at [fcgov.com/UAP](https://fcgov.com/UAP).

### **PAYMENT ASSISTANCE FUND**

One-time financial assistance per 12-month cycle on your past-due electric and/or water bill.

### **MEDICAL ASSISTANCE PROGRAM**

Discounted electric rate for medically necessary equipment.

### **INCOME-QUALIFIED ASSISTANCE PROGRAM**

Reduced electric, water and/or wastewater rate that provides 25% off certain elements of these services (increase from 23% to 25% beginning January 2023).

Utilities

# 2024 RATE CHANGES

Small, steady rate increases cover the costs of delivering reliable electric, water, wastewater and stormwater services to our customers now and into the future.

## ELECTRIC

5% average increase due to higher generation costs associated with new, renewable resources and capital projects like transformer and cable replacements.

## WATER

4% increase to help fund capital projects like pipe and meter replacements.

## WASTEWATER

4% increase to help fund capital projects like improvements at the Drake Water Reclamation Facility and collection system replacement.

## STORMWATER

3% increase to help fund capital projects like the Oak Street Outfall and stream rehabilitation.

# The Cost of PROVIDING SERVICE

Our prices are based on the costs associated with serving our customers and are adjusted through bi-annual, cost-of-service studies.

We do not profit on the services we provide. Funds received are invested into our infrastructure and operations to maintain and continually improve our systems.

Many factors, including fuel and wholesale costs, environmental regulations, infrastructure improvements, and changing energy and water demands, affect the costs of producing and providing utility services.

When setting rates, we balance these factors to ensure safety, reliability and the best price possible for our customers.

## COMMERCIAL RATES

Learn about commercial rates and how to manage costs at [fcgov.com/commercial-rates](https://fcgov.com/commercial-rates).

## Take Control of YOUR ELECTRIC BILL

With Time-of-Day (TOD) residential electric pricing, when you use electricity is as important as how much you use. Shift your use to the lower-priced, off-peak hours or reduce your overall use to save.

- Run your dishwasher in the morning, later in the evening/night or on weekends.
- Use a programmable or smart thermostat to control heating and cooling costs.
- Save approximately 50¢ per load by drying your laundry during off-peak hours.

Crews replace storm sewer pipes to improve stormwater drainage.

## 2023 to 2024 RESIDENTIAL BILL COMPARISON

	2023 RATES	2024 RATES	% CHANGE	\$ CHANGE
 <b>ELECTRIC</b> 700 kilowatt-hours/month	\$84.20	\$88.41	5%	\$4.21
 <b>WATER</b> 10,000 gallons/month	\$51.00	\$53.04	4%	\$2.04
 <b>WASTEWATER</b> 4,800 gallons/month WQA	\$35.61	\$37.04	4%	\$1.42
 <b>STORMWATER</b> 8,600 sq. ft. lot, light runoff	\$22.42	\$23.09	3%	\$0.67
<b>Avg. Utility Bill Total</b>	\$193.22	\$201.57	4.3%	<b>\$8.35</b>

A typical residential customer, based on average annual use, could expect to see an overall increase of \$8.35 per month (see chart).
