Climate Protection: Every Action Counts

March 4, Prairie Sage Rooms 1 & 2

Fort Collins has been a leader in climate protection for almost two decades. Learn how the City of Fort Collins is continuing to address climate change and how you can help.

\$5 Million and Change

March 11, Prairie Sage Rooms 1 & 2

The City is competing in a nationwide energy efficiency challenge. Learn how to reduce energy use and share your ideas on how the community could use the \$5 million prize.

Be Air Aware

March 25, Twinberry Auditorium

Learn about clearing the air in your home and community and air quality programs that can guide you to a healthier life.

Go Solar

April 1, Twinberry Auditorium

Fort Collins Utilities will shed light on the community solar garden, low-income solar initiative, availability of solar rebates and general renewables information.

Wildscaping: Beyond the Basics

April 8, Prairie Sage Rooms 1 & 2

Get new design ideas and learn about the best plant selections to provide habitat for songbirds, pollinators and other wildlife with Lauren Springer Odgen and Susan Tweit.

A Cooler Future: Easy Like Water

April 15, Twinberry Auditorium

Watch “Easy Like Water,” a film about adapting to climate change in Bangladesh by building floating solar schools. Discuss potential projects, engagement strategies and policies for our community.

Unwatered Landscapes and Crevice Gardening

April 22, Twinberry Auditorium

Lush landscapes can be created without water. Learn techniques for installation and how to build a crevice garden.

The Art and Science of Composting

May 6, Prairie Sage Rooms 1 & 2

Learn the basics of turning your household’s yard trimmings and food scraps into an excellent soil amendment. More advanced problem-solving techniques will be discussed for long-time composters.

The Year in the Life of a Dry Garden

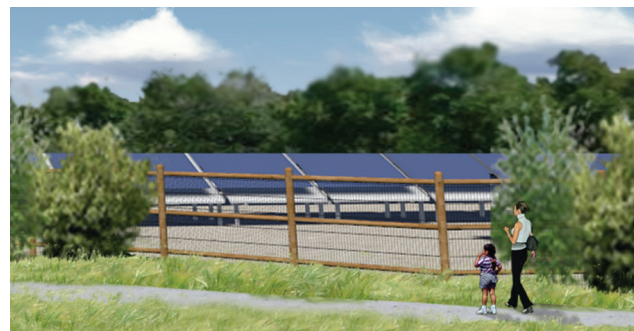

May 13, Twinberry Auditorium

Create your own beautiful year-round garden. Learn from the director of Plant Select® about a variety of adaptable and resilient plants that provide color, texture and architectural interest.

Your Home Energy Roadmap

May 20, Prairie Sage Rooms 1 & 2

The Efficiency Works™ - Home program can map your route to a comfortable, safe and efficient home. Learn about the process, from the initial audit to the final rebate.

The community solar garden is a centralized solar facility for those who want the benefits of solar ownership without the research, construction and maintenance of a stand-alone system.
