- Account information, including account number and service address.
- Your current billing period total for all services and your overall total, including unpaid amounts from past billing periods.
- Breakdown of previous and current balances. **Total amount due** includes past unpaid charges.
- Electric Energy** base charges are applied to all customers. Base charges do not change, whereas tiered rate charges change depending on usage. There are up to three electric tiers. Tier details: [fcgov.com/residential-electric-rates](http://fcgov.com/residential-electric-rates)
- The **Usage** listed on your bill is the amount of energy (tiers 1-3) used from the Utilities grid for the service dates based on your Fort Collins Utilities meter.
- Electric Net Returned** is the amount of solar electricity sent onto the electric grid in times of surplus/over-generation. To determine the amount of solar energy used by your house for the service period, take the gross solar generation (kWh) from your system monitoring device for the corresponding service dates from your utility bill and subtract the Electric Net Returned amount (kWh) on your bill (e.g., If your system monitoring device says 1,000 kWh was produced for the service dates and your bill says 287 kWh was Electric Net Returned, your house consumed 713 kWh of solar energy).  
  
To determine the total amount of energy used by your home, add solar energy used by your house (determined above) to the bill Usage (e.g., 713 kWh plus 710 kWh totals 1423 kWh for the household).
- To learn more about **Water**, **Stormwater** and **Wastewater** service charges, visit [fcgov.com/how-to-read-your-bill](http://fcgov.com/how-to-read-your-bill).
- Water and Electric History** show your use from Utilities for your last billing period and the same billing period the previous year. Depending on available space, you may see additional usage history.
- Below the dotted line is the bill stub. Include when paying by mail or in person.
